7. STATUTORY, REGULATORY AND POLICY REFERENCE(S):

a. Section 1553, Title 10, United States Code (Review of Discharge or Dismissal) provides for the creation, composition, and scope of review conducted by a Discharge Review Board(s) within established governing standards. As amended by Sections 521 and 525 of the National Defense Authorization Act for Fiscal Year 2020, 10 USC 1553 provides specific guidance to the Military Boards for Correction of Military/Naval Records and Discharge Review Boards when considering discharge upgrade requests by Veterans claiming Post Traumatic Stress Disorder (PTSD), Traumatic Brain Injury (TBI), sexual trauma, intimate partner violence (IPV), or spousal abuse, as a basis for discharge review. The amended guidance provides that Boards will include, as a voting board member, a physician trained in mental health disorders, a clinical psychologist, or a psychiatrist when the discharge upgrade claim asserts a mental health

condition, including PTSD, TBI, sexual trauma, IPV, or spousal abuse, as a basis for the discharge. Further, the guidance provides that Military Boards for Correction of Military/Naval Records and Discharge Review Boards will develop and provide specialized training specific to sexual trauma, IPV, spousal abuse, as well as the various responses of individuals to trauma.

b. Multiple Department of Defense Policy Guidance Memoranda published between 2014 and 2018. The documents are commonly referred to by the signatory authorities' last names (2014 Secretary of Defense Guidance [Hagel memo], 2016 Acting Principal Deputy Under Secretary of Defense for Personnel and Readiness [Carson memo], 2017 Official Performing the Duties of the Under Secretary of Defense for Personnel and Readiness [Kurta memo], and 2018 Under Secretary of Defense for Personnel and Readiness [Wilkie memo].

(1) Individually and collectively, these documents provide further clarification to the Military Discharge Review Boards and Boards for Correction of Military/Naval Records when considering requests by Veterans for modification of their discharge due to mental health conditions, including PTSD; TBI; sexual assault; or sexual harassment. Liberal consideration will be given to Veterans petitioning for discharge relief when the application for relief is based in whole or in part on matters relating to mental health conditions, including PTSD; TBI; sexual assault; or sexual harassment. Special consideration will be given to Department of Veterans Affairs (VA) determinations that document a mental health condition, including PTSD; TBI; or sexual assault/harassment potentially contributed to the circumstances resulting in a less than honorable discharge characterization. Special consideration will also be given in cases where a civilian provider confers diagnoses of a mental health condition, including PTSD; TBI; or sexual assault/harassment if the case records contain narratives supporting symptomatology at the time of service or when any other evidence which may reasonably indicate that a mental health condition, including PTSD; TBI; or sexual assault/harassment existed at the time of discharge might have mitigated the misconduct that caused a discharge of lesser characterization.

(2) Conditions documented in the service record that can reasonably be determined to have existed at the time of discharge will be considered to have existed at the time of discharge. In cases in which a mental health condition, including PTSD; TBI; or sexual assault/harassment may be reasonably determined to have existed at the time of discharge, those conditions will be considered potential mitigating factors in the misconduct that caused the characterization of service in question. All Boards will exercise caution in weighing evidence of mitigation in cases in which serious misconduct precipitated a discharge with a less than Honorable characterization of service. Potentially mitigating evidence of the existence of undiagnosed combat related PTSD, PTSD-related conditions due to TBI or sexual assault/harassment as causative factors in the misconduct resulting in discharge will be carefully weighed against the severity of the misconduct. PTSD is not a likely cause of premeditated misconduct. Caution shall be exercised in weighing evidence of mitigation in all cases of misconduct by carefully considering the likely causal relationship of symptoms to the misconduct.

c. Army Regulation 15-180 (Army Discharge Review Board), sets forth the policies and procedures under which the Army Discharge Review Board is authorized to review the character, reason, and authority of any Servicemember discharged from active military service within 15 years of the Servicemember's date of discharge. Additionally, it prescribes actions and composition of the Army Discharge Review Board under Public Law 95-126; Section 1553, Title 10 United States Code; and Department of Defense Directive 1332.41 and Instruction 1332.28.

d. Army Regulation 635-200 (Active Duty Enlisted Administrative Separations), provides the basic authority for the separation of enlisted personnel.

(1) Chapter 3, Section II provides the authorized types of characterization of service or description of separation.

(2) Paragraph 3-7a states an Honorable discharge is a separation with honor and is appropriate when the quality of the Soldier's service generally has met the standards of acceptable conduct and performance of duty for Army personnel or is otherwise so meritorious that any other characterization would be clearly inappropriate.

(3) Chapter 5 provides for the basic separation of enlisted personnel for the convenience of the government.

(4) Paragraph 5-1, states a Soldier being separated under this paragraph will be awarded a characterization of service of honorable, general (under honorable conditions), or an uncharacterized description of service if in entry-level status. A general (under honorable conditions) discharge is normally inappropriate for individuals separated under the provisions of paragraph 5-14 (previously paragraph 5-17) unless properly notified of the specific factors in the service that warrant such characterization.

(5) Paragraph 5-14 (previously paragraph 5-17) specifically provides that a Soldier may be separated for other physical or mental conditions not amounting to a disability, which interferes with assignment to or performance of duty and requires that the diagnosis be so severe that the Soldier's ability to function in the military environment is significantly impaired.

e. Army Regulation 635-5-1 (Separation Program Designator (SPD) Codes), provides the specific authorities (regulatory or directive), reasons for separating Soldiers from active duty, and the SPD codes to be entered on the DD Form 214. It identifies the SPD code of "JFV" as the appropriate code to assign enlisted Soldiers who are discharged under the provisions of Army Regulation 635-200, Chapter 5-14 (previously Chapter 5-17), Condition, Not a Disability.

f. Army Regulation 601-210 (Regular Army and Reserve Components Enlistment Program), governs eligibility criteria, policies, and procedures for enlistment and processing of persons into the Regular Army, the U.S. Army Reserve, and Army National Guard for enlistment per DODI 1304.26. It also prescribes the appointment, reassignment, management, and mobilization of Reserve Officers' Training Corps cadets under the Simultaneous Membership Program. Chapter 4 provides the criteria and procedures for waiverable and nonwaiverable separations. Table 3-1, defines reentry eligibility (RE) codes:

RE-1 Applies to: Person completing his or her term of active service who is considered qualified to reenter the U.S. Army. Eligibility: Qualified for enlistment if all other criteria are met. Delete if NA.

RE-3 Applies to: Person who is not considered fully qualified for reentry or continuous service at time of separation, but disqualification is waiverable. Eligibility: Ineligible unless a waiver is granted. Delete if NA.

RE-4 Applies to: Person separated from last period of service with a nonwaiverable disqualification. This includes anyone with a DA imposed bar to reenlistment in effect at time of separation or separated for any reason (except length of service retirement) with 18 or more years active Federal service. Eligibility: Ineligible for enlistment. Delete if NA.

8. SUMMARY OF FACT(S): The Army Discharge Review Board considers applications for upgrade as instructed by Department of Defense Instruction 1332.28.

The applicant requests an upgrade to honorable.

The applicant's Army Military Human Resources Record (AMHRR) is void of the specific facts and circumstances concerning the events which led to the discharge from the Army. The applicant's AMHRR does contain a properly constituted DD Form 214 (Certificate of Release or Discharge from Active Duty), which was not authenticated by the applicant's electronic signature. The applicant's DD Form 214 indicates the applicant was discharged under the provisions of AR 635-200, Chapter 5, paragraph 5-17, by reason of Condition, Not a Disability, with a characterization of service of honorable.

The applicant contends the narrative reason for the discharge needs changed. The applicant was separated under the provisions, at the time, of Chapter 5, paragraph 5-17, AR 635-200 with an honorable discharge. The narrative reason specified by Army Regulations for a discharge under this paragraph is "Condition, Not a Disability," and the separation code is "JFV." Army Regulation 635-8 (Separation Processing and Documents), governs preparation of the DD Form 214, and dictates the entry of the narrative reason for separation, entered in block 28 and separation code, entered in block 26 of the form, will be exactly as listed in tables 2-2 or 2-3 of AR 635-5-1 (Separation Program Designator (SPD) Codes). The regulation stipulates no deviation is authorized. There is no provision for any other reason to be entered under this regulation.

The applicant contends having proof to refute their inaccurate diagnosis of an anxiety disorder. The applicant provided a Psychological Evaluation, 10 July 2013, reflecting no diagnosis. The AMHRR is void of a mental status evaluation.

The applicant contends family issues affected behavior and ultimately caused the discharge. The third-party statement provided with the application reflects on the sacrifice the applicant made to take care of their parent. There is no evidence in the AMHRR the applicant ever sought assistance before committing the misconduct, which led to the separation action under review.

The applicant desires to rejoin the Military Service. Soldiers processed for separation are assigned reentry codes based on their service records or the reason for discharge. Based on Army Regulation 601-201, the applicant was appropriately assigned an RE code of "3." There is no basis upon which to grant a change to the reason or the RE code. An RE Code of "3" indicates the applicant requires a waiver before being allowed to reenlist. Recruiters can best advise a former service member as to the Army's needs at the time and are required to process waivers of reentry eligibility (RE) codes if appropriate.

The applicant contends seeking treatment. The Army Discharge Review Board is authorized to consider post-service factors in the recharacterization of a discharge. No law or regulation provides for the upgrade of an unfavorable discharge based solely on the passage of time or good conduct in civilian life after leaving the service. The Board reviews each discharge on a case-by-case basis to determine if post-service accomplishments help demonstrate previous in-service misconduct was an aberration and not indicative of the member's overall character.

9. BOARD DISCUSSION AND DETERMINATION:

a. As directed by the 2017 memo signed by A.M. Kurta, the board considered the following factors:

(1) Did the applicant have a condition or experience that may excuse or mitigate the discharge? **Yes.** The Board's Medical Advisor, a voting member, reviewed the applicant's DOD and VA health records, applicant's statement, and/or civilian provider documentation and found

that the applicant has the following potentially-mitigating diagnoses/experiences: Adjustment Disorder, Anxiety, Depression. However, the applicant has an HD and there is no misconduct associated with this discharge to potentially excuse or mitigate.

- (2) Did the condition exist or experience occur during military service? **N/A**
- (3) Does the condition or experience actually excuse or mitigate the discharge? **N/A**
- (4) Does the condition or experience outweigh the discharge? **N/A**

b. Response to Contention(s):

(1) The applicant contends having proof to refute their inaccurate diagnosis of an anxiety disorder. The Board considered this contention but determined that the applicant's current mental health status does not change the facts of the applicant's discharge, which included two hospitalizations related to behavioral health circumstances. Therefore, a discharge upgrade is not warranted.

(2) The applicant contends the narrative reason for the discharge needs changed. The Board considered this contention but found that the applicant's Condition, Not a Disability narrative reason for separation is proper and equitable given the applicant's behavioral health issues at the time of separation.

(3) The applicant desires to rejoin the military service. The Board considered this contention and voted to maintain the RE-code at a RE-3, which is a waivable code. An RE Code of "3" indicates the applicant requires a waiver before being allowed to reenlist. Recruiters can best advise a former service member as to the Army's needs at the time and are required to process waivers of reentry eligibility (RE) codes, if appropriate

(4) The applicant contends seeking treatment. The Board is glad to hear that the applicant has sought treatment and wishes the applicant well but did not find that this warrants a change to the applicant's narrative reason for separation.

c. The Board determined that the discharge is, at this time, proper and equitable, in light of the current evidence of record. However, the applicant may request a personal appearance hearing to address the issues before the Board. The applicant is responsible for satisfying the burden of proof and providing documents or other evidence sufficient to support the applicant's contention(s) that the discharge was improper or inequitable.

d. Rationale for Decision:

(1) The Board voted not to change the applicant's characterization of service because the applicant already holds a honorable characterization and further relief is not available.

(2) The Board voted not to change the applicant's reason for discharge or accompanying SPD code under the same pretexts, and the reason the applicant was discharged was both proper and equitable.

(3) The RE code will not change, as the current code is consistent with the procedural and substantive requirements of the regulation.
