  - 7. **STATUTORY, REGULATORY AND POLICY REFERENCE(S):**
    - a. Section 1553, Title 10, United States Code (Review of Discharge or Dismissal) provides for the creation, composition, and scope of review conducted by a Discharge Review Board(s) within established governing standards. As amended by Sections 521 and 525 of the National Defense Authorization Act for Fiscal Year 2020, 10 USC 1553 provides specific guidance to the Military Boards for Correction of Military/Naval Records and Discharge Review Boards when considering discharge upgrade requests by Veterans claiming Post Traumatic Stress Disorder (PTSD), Traumatic Brain Injury (TBI), sexual trauma, intimate partner violence (IPV), or spousal abuse, as a basis for discharge review. The amended guidance provides that Boards will include, as a voting board member, a physician trained in mental health disorders, a clinical psychologist, or a psychiatrist when the discharge upgrade claim asserts a mental health condition, including PTSD, TBI, sexual trauma, IPV, or spousal abuse, as a basis for the discharge. Further, the guidance provides that Military Boards for Correction of Military/Naval Records and Discharge Review Boards will develop and provide specialized training specific to sexual trauma, IPV, spousal abuse, as well as the various responses of individuals to trauma.
    - b. Multiple Department of Defense Policy Guidance Memoranda published between 2014 and 2018. The documents are commonly referred to by the signatory authorities' last names (2014 Secretary of Defense Guidance [Hagel memo], 2016 Acting Principal Deputy Under

Secretary of Defense for Personnel and Readiness [Carson memo], 2017 Official Performing the Duties of the Under Secretary of Defense for Personnel and Readiness [Kurta memo], and 2018 Under Secretary of Defense for Personnel and Readiness [Wilkie memo].

**(1)** Individually and collectively, these documents provide further clarification to the Military Discharge Review Boards and Boards for Correction of Military/Naval Records when considering requests by Veterans for modification of their discharge due to mental health conditions, including PTSD; TBI; sexual assault; or sexual harassment. Liberal consideration will be given to Veterans petitioning for discharge relief when the application for relief is based in whole or in part on matters relating to mental health conditions, including PTSD; TBI; sexual assault; or sexual harassment. Special consideration will be given to Department of Veterans Affairs (VA) determinations that document a mental health condition, including PTSD; TBI; or sexual assault/harassment potentially contributed to the circumstances resulting in a less than honorable discharge characterization. Special consideration will also be given in cases where a civilian provider confers diagnoses of a mental health condition, including PTSD; TBI; or sexual assault/harassment if the case records contain narratives supporting symptomatology at the time of service or when any other evidence which may reasonably indicate that a mental health condition, including PTSD; TBI; or sexual assault/harassment existed at the time of discharge might have mitigated the misconduct that caused a discharge of lesser characterization.

**(2)** Conditions documented in the service record that can reasonably be determined to have existed at the time of discharge will be considered to have existed at the time of discharge. In cases in which a mental health condition, including PTSD; TBI; or sexual assault/harassment may be reasonably determined to have existed at the time of discharge, those conditions will be considered potential mitigating factors in the misconduct that caused the characterization of service in question. All Boards will exercise caution in weighing evidence of mitigation in cases in which serious misconduct precipitated a discharge with a less than Honorable characterization of service. Potentially mitigating evidence of the existence of undiagnosed combat related PTSD, PTSD-related conditions due to TBI or sexual assault/harassment as causative factors in the misconduct resulting in discharge will be carefully weighed against the severity of the misconduct. PTSD is not a likely cause of premeditated misconduct. Caution shall be exercised in weighing evidence of mitigation in all cases of misconduct by carefully considering the likely causal relationship of symptoms to the misconduct.

**c.** Army Regulation 15-180 (Army Discharge Review Board), sets forth the policies and procedures under which the Army Discharge Review Board is authorized to review the character, reason, and authority of any Servicemember discharged from active military service within 15 years of the Servicemember's date of discharge. Additionally, it prescribes actions and composition of the Army Discharge Review Board under Public Law 95-126; Section 1553, Title 10 United States Code; and Department of Defense Directive 1332.41 and Instruction 1332.28.

**d.** Army Regulation 635-200 (Active Duty Enlisted Administrative Separations), provides the basic authority for the separation of enlisted personnel.

**(1)** Chapter 3, Section II provides the authorized types of characterization of service or description of separation.

**(2)** Paragraph 3-7a states an Honorable discharge is a separation with honor and is appropriate when the quality of the Soldier's service generally has met the standards of acceptable conduct and performance of duty for Army personnel or is otherwise so meritorious that any other characterization would be clearly inappropriate.

(3) Paragraph 3-7b states a General discharge is a separation from the Army under honorable conditions and is issued to a Soldier whose military record is satisfactory but not sufficiently meritorious to warrant an honorable discharge.

(4) Paragraph 3-9 states a separation will be described as entry-level with service uncharacterized if processing is initiated while a Soldier is in entry-level status.

(5) Chapter 5 provides for the basic separation of enlisted personnel for the convenience of the government.

(6) Paragraph 5-1, states a Soldier being separated under this paragraph will be awarded a characterization of service of honorable, general (under honorable conditions), or an uncharacterized description of service if in entry-level status. A general (under honorable conditions) discharge is normally inappropriate for individuals separated under the provisions of paragraph 5-14 (previously paragraph 5-17) unless properly notified of the specific factors in the service that warrant such characterization.

(7) Paragraph 5-14 (previously paragraph 5-17) specifically provides that a Soldier may be separated for other physical or mental conditions not amounting to a disability, which interferes with assignment to or performance of duty and requires that the diagnosis be so severe that the Soldier's ability to function in the military environment is significantly impaired.

(8) Glossary defines entry-level status for RA Soldiers is the first 180 days of continuous AD or the first 180 days of continuous AD following a break of more than 92 days of active military service.

e. Army Regulation 635-5-1 (Separation Program Designator (SPD) Codes), provides the specific authorities (regulatory or directive), reasons for separating Soldiers from active duty, and the SPD codes to be entered on the DD Form 214. It identifies the SPD code of "JFV" as the appropriate code to assign enlisted Soldiers who are discharged under the provisions of Army Regulation 635-200, Chapter 5-14 (previously Chapter 5-17), Condition, Not a Disability.

f. Army Regulation 601-210 (Regular Army and Reserve Components Enlistment Program), governs eligibility criteria, policies, and procedures for enlistment and processing of persons into the Regular Army, the U.S. Army Reserve, and Army National Guard for enlistment per DODI 1304.26. It also prescribes the appointment, reassignment, management, and mobilization of Reserve Officers' Training Corps cadets under the Simultaneous Membership Program. Chapter 4 provides the criteria and procedures for waiverable and nonwaiverable separations. Table 3-1, defines reentry eligibility (RE) codes: RE-3 Applies to: Person who is not considered fully qualified for reentry or continuous service at time of separation, but disqualification is waiverable. Eligibility: Ineligible unless a waiver is granted.

**8. SUMMARY OF FACT(S):** The Army Discharge Review Board considers applications for upgrade as instructed by Department of Defense Instruction 1332.28.

The applicant requests an upgrade to honorable.

The applicant contends the condition was caused by their active-duty service. The applicant did not submit any evidence, other than the applicant's statement, to support the contention. The applicant's AMHRR shows the applicant underwent a mental status evaluation (MSE) on 16 June 2005, which reflects the applicant was cleared for any administrative actions deemed appropriate by the command. The applicant could understand and participate in administrative proceedings; could appreciate the difference between right and wrong; and met medical

retention requirements. The applicant's diagnoses were listed. The applicant's AMHRR contains a Report of Medical History, 8 September 2005, and a Report of Medical Examination, 16 September 2005, wherein the examining medical physicians noted the applicant's medical conditions. The Mental Status Evaluation, Report of Medical History, and Report of Medical Examination were considered by the separation authority.

#### 9. BOARD DISCUSSION AND DETERMINATION:

a. As directed by the 2017 memo signed by A.M. Kurta, the board considered the following factors:

(1) Did the applicant have a condition or experience that may excuse or mitigate the discharge? **No.** The Board Medical Advisor, a voting member, reviewed the applicant's DOD and VA health records, applicant's statement, and/or civilian provider documentation and found that the applicant was discharged with an uncharacterized characterization of service for a condition not amounting to a disability in accordance with AR 635-200, paragraph 5-17. The applicant was diagnosed with Adjustment Disorder with Depressed Mood that affected the applicant's adjustment to the IET environment. The applicant did not provide any medical records asserting any additional BH conditions or contend that the applicant's service exacerbated the applicant's documented BH conditions. Therefore, the applicant's Adjustment Disorder with Depressed Mood cannot mitigate the applicant's discharge, as the applicant's medical condition, not misconduct, was the basis for the applicant's separation.

(2) Did the condition exist or experience occur during military service? **N/A.**

(3) Does the condition or experience actually excuse or mitigate the discharge? **N/A.**

(4) Does the condition or experience outweigh the discharge? **N/A.**

b. Response to Contention(s): The applicant contends the condition was caused by the applicant's active-duty service. The Board considered this contention was proper and equitable in the absence of additional evidence to support the contention. The Board found that the applicant's Uncharacterized characterization of service with a Condition, Not a Disability narrative reason for separation is correct given the applicant's adjustment difficulties.

c. The Board determined that the discharge is, at this time, proper and equitable, in light of the current evidence of record. The applicant has exhausted all available appeal options available with ADRB. However, the applicant may still apply to the Army Board for Correction of Military Records. The applicant is responsible for satisfying the burden of proof and providing documents or other evidence sufficient to support the applicant's contention(s) that the discharge was improper or inequitable.

d. Rationale for Decision:

(1) The Board voted not to change the applicant's characterization of service because there were no mitigating factors for the Board to consider. Since the applicant was discharged within the first 180 days of active service, Uncharacterized is proper and equitable. The discharge was consistent with the procedural and substantive requirements of the regulation, was within the discretion of the separation authority, and the applicant was provided full administrative due process.

(2) The Board voted not to change the applicant's reason for discharge or accompanying SPD code under the same pretexts, as the reason the applicant was discharged was both proper and equitable.

(3) The RE code will not change, as the current code is consistent with the procedural and substantive requirements of the regulation.

10. BOARD ACTION DIRECTED:

- a. Issue a New DD-214 / Separation Order: No
- b. Change Characterization to: No Change
- c. Change Reason / SPD Code to: No Change
- d. Change RE Code to: No Change
- e. Change Authority to: No Change
