- b. **Date Received:** 26 April 2021
- c. **Counsel:** None

2. REQUEST, ISSUES, BOARD TYPE, AND DECISION:

a. **Applicant's Requests and Issues:** The current characterization of service for the period under review is uncharacterized. The applicant requests an upgrade to honorable.

The applicant seeks relief contending, in effect, desiring to serve the full active term in the Army, and to reenlist. The applicant was diagnosed with more than one mental illness, which is a disability. The applicant had no control over this medical condition. The applicant would still be serving actively in the Army today if the applicant was not discharged after a brief stay at Walter Reed Army Medical Center. The applicant believes the applicant should be entitled to medical benefits. The applicant was discharged for having a mental illness and an uncharacterized discharge punishes the applicant for an illness the applicant had no control over.

b. **Board Type and Decision:** In a records review conducted on 7 March 2024, and by a 5-0 vote, the Board denied the request upon finding the separation was both proper and equitable. However, notwithstanding the propriety of the applicant's discharge, the Board found that the applicant's DD Form 214, blocks 25, 26, and 28 should be changed to reflect updates to Army Regulation 635-200. The Board directed the following administrative corrections and reissue of the applicant's DD Form 214, as approved by the separation authority:

- a. block 25, separation authority changed to AR 635-200, paragraph 5-17;
- b. block 26, separation code changed to JFV.
- c. block 28, narrative reason for separation changed to Condition, Not a Disability

Please see Section 9 of this document for more detail regarding the Board's decision.

7. STATUTORY, REGULATORY AND POLICY REFERENCE(S):

a. Section 1553, Title 10, United States Code (Review of Discharge or Dismissal) provides for the creation, composition, and scope of review conducted by a Discharge Review Board(s) within established governing standards. As amended by Sections 521 and 525 of the National Defense Authorization Act for Fiscal Year 2020, 10 USC 1553 provides specific guidance to the Military Boards for Correction of Military/Naval Records and Discharge Review Boards when considering discharge upgrade requests by Veterans claiming Post Traumatic Stress Disorder (PTSD), Traumatic Brain Injury (TBI), sexual trauma, intimate partner violence (IPV), or spousal abuse, as a basis for discharge review. The amended guidance provides that Boards will include, as a voting board member, a physician trained in mental health disorders, a clinical psychologist, or a psychiatrist when the discharge upgrade claim asserts a mental health

condition, including PTSD, TBI, sexual trauma, IPV, or spousal abuse, as a basis for the discharge. Further, the guidance provides that Military Boards for Correction of Military/Naval Records and Discharge Review Boards will develop and provide specialized training specific to sexual trauma, IPV, spousal abuse, as well as the various responses of individuals to trauma.

b. Multiple Department of Defense Policy Guidance Memoranda published between 2014 and 2018. The documents are commonly referred to by the signatory authorities' last names (2014 Secretary of Defense Guidance [Hagel memo], 2016 Acting Principal Deputy Under Secretary of Defense for Personnel and Readiness [Carson memo], 2017 Official Performing the Duties of the Under Secretary of Defense for Personnel and Readiness [Kurta memo], and 2018 Under Secretary of Defense for Personnel and Readiness [Wilkie memo].

(1) Individually and collectively, these documents provide further clarification to the Military Discharge Review Boards and Boards for Correction of Military/Naval Records when considering requests by Veterans for modification of their discharge due to mental health conditions, including PTSD; TBI; sexual assault; or sexual harassment. Liberal consideration will be given to Veterans petitioning for discharge relief when the application for relief is based in whole or in part on matters relating to mental health conditions, including PTSD; TBI; sexual assault; or sexual harassment. Special consideration will be given to Department of Veterans Affairs (VA) determinations that document a mental health condition, including PTSD; TBI; or sexual assault/harassment potentially contributed to the circumstances resulting in a less than honorable discharge characterization. Special consideration will also be given in cases where a civilian provider confers diagnoses of a mental health condition, including PTSD; TBI; or sexual assault/harassment if the case records contain narratives supporting symptomatology at the time of service or when any other evidence which may reasonably indicate that a mental health condition, including PTSD; TBI; or sexual assault/harassment existed at the time of discharge might have mitigated the misconduct that caused a discharge of lesser characterization.

(2) Conditions documented in the service record that can reasonably be determined to have existed at the time of discharge will be considered to have existed at the time of discharge. In cases in which a mental health condition, including PTSD; TBI; or sexual assault/harassment may be reasonably determined to have existed at the time of discharge, those conditions will be considered potential mitigating factors in the misconduct that caused the characterization of service in question. All Boards will exercise caution in weighing evidence of mitigation in cases in which serious misconduct precipitated a discharge with a less than Honorable characterization of service. Potentially mitigating evidence of the existence of undiagnosed combat related PTSD, PTSD-related conditions due to TBI or sexual assault/harassment as causative factors in the misconduct resulting in discharge will be carefully weighed against the severity of the misconduct. PTSD is not a likely cause of premeditated misconduct. Caution shall be exercised in weighing evidence of mitigation in all cases of misconduct by carefully considering the likely causal relationship of symptoms to the misconduct.

c. Army Regulation 15-180 (Army Discharge Review Board) sets forth the policies and procedures under which the Army Discharge Review Board is authorized to review the character, reason, and authority of any Servicemember discharged from active military service within 15 years of the Servicemember's date of discharge. Additionally, it prescribes actions and composition of the Army Discharge Review Board under Public Law 95-126; Section 1553, Title 10 United States Code; and Department of Defense Directive 1332.41 and Instruction 1332.28.

d. Army Regulation 635-200 (Active Duty Enlisted Administrative Separations) provides the basic authority for the separation of enlisted personnel.

(1) Chapter 3, Section II provides the authorized types of characterization of service or description of separation.

(2) Paragraph 3-7a states an Honorable discharge is a separation with honor and is appropriate when the quality of the Soldier's service generally has met the standards of acceptable conduct and performance of duty for Army personnel or is otherwise so meritorious that any other characterization would be clearly inappropriate.

(3) Paragraph 3-9 states a separation will be described as entry-level with service uncharacterized if processing is initiated while a Soldier is in entry-level status.

(4) Chapter 5 provides for the basic separation of enlisted personnel for the convenience of the government.

(5) Paragraph 5-13, in effect at the time, provided that a Soldier may be separated for a personality disorder, not amounting to disability, when the condition interfered with assignment to or performance of duty. The regulation requires that the condition is a deeply ingrained maladaptive pattern of behavior of long duration that interferes with the Soldier's ability to perform military duties. The regulation also directs that commanders will not take action prescribed in this Chapter in lieu of disciplinary action and requires that the disorder is so severe that the Soldier's ability to function in the military environment is significantly impaired. Army policy requires the award of a fully honorable discharge in such case.

(6) Paragraph 5-13h, stipulates a characterization of a Soldier separated per this paragraph will be characterized as honorable unless an entry-level separation is required under chapter 3, section II. Characterization of service under honorable conditions may be awarded to a Soldier who has been convicted of an offense by general court-martial or who has been convicted by more than one special court-martial in the current enlistment, period of obligated service, or any extension thereof.

(7) Glossary defines entry-level status for RA Soldiers is the first 180 days of continuous AD or the first 180 days of continuous AD following a break of more than 92 days of active military service.

e. Army Regulation 635-5-1 (Separation Program Designator (SPD) Codes), in effect at the time, provided the specific authorities (regulatory or directive), reasons for separating Soldiers from active duty, and the SPD codes to be entered on the DD Form 214. It identified the SPD code of "JFX" as the appropriate code to assign enlisted Soldiers who were discharged under the provisions of Army Regulation 635-200, Chapter 5-13, personality disorder.

f. Army Regulation 601-210 (Regular Army and Reserve Components Enlistment Program) governs eligibility criteria, policies, and procedures for enlistment and processing of persons into the Regular Army, the U.S. Army Reserve, and Army National Guard for enlistment per DODI 1304.26. It also prescribes the appointment, reassignment, management, and mobilization of Reserve Officers' Training Corps cadets under the Simultaneous Membership Program. Chapter 4 provides the criteria and procedures for waiverable and nonwaiverable separations. Table 3-1 defines reentry eligibility (RE) codes. RE-3 Applies to: Person who is not considered fully qualified for reentry or continuous service at time of separation, but disqualification is waiverable. Eligibility: Ineligible unless a waiver is granted.

8. SUMMARY OF FACT(S): The Army Discharge Review Board considers applications for upgrade as instructed by Department of Defense Instruction 1332.28.

The applicant requests an upgrade to honorable. The applicant's Army Military Human Resources Record (AMHRR), the issues, and documents submitted with the application were carefully reviewed.

The applicant's Army Military Human Resources Record (AMHRR) is void of the specific facts and circumstances concerning the events which led to the discharge from the Army. The applicant's AMHRR does contain a properly constituted DD Form 214 (Certificate of Release or Discharge from Active Duty), which was authenticated by the applicant's signature. The applicant's DD Form 214 indicates the applicant was discharged under the provisions of AR 635-200, Chapter 5, paragraph 5-13, by reason of Personality Disorder, with a characterization of service of uncharacterized.

The applicant contends being diagnosed with more than one mental illness, which affected behavior and led to the discharge. The applicant did not submit any evidence, other than the applicant's statement, to support the contention the applicant was diagnosed with more than one mental illness. The applicant's DD Form 214 supports the applicant's contention, in part, reflecting the applicant was diagnosed with at least one in-service mental illness. The AMHRR is void of a mental status evaluation.

The applicant contends an upgrade of the discharge would allow veterans benefits. Eligibility for veteran's benefits does not fall within the purview of the Army Discharge Review Board. Accordingly, the applicant should contact a local office of the Department of Veterans Affairs for further assistance.

9. BOARD DISCUSSION AND DETERMINATION:

a. As directed by the 2017 memo signed by A.M. Kurta, the board considered the following factors:

(1) Did the applicant have a condition or experience that may excuse or mitigate the discharge? **No.** The Board's Medical Advisor, a voting member, reviewed the applicant's DOD and VA health records, the applicant's statement, and/or civilian provider documentation and found no evidence of any BH conditions or experiences that would provide mitigation for an Uncharacterized discharge for a Personality Disorder.

(2) Did the condition exist or experience occur during military service? **N/A**

(3) Does the condition or experience excuse or mitigate the discharge? **N/A**

(4) Does the condition or experience outweigh the discharge? **N/A**

b. Response to Contention(s):

(1) The applicant contends being diagnosed with more than one mental illness, which affected behavior and led to the discharge. The Board liberally considered this contention but found no evidence of any BH conditions or experiences that would provide mitigation for an Uncharacterized discharge for a Personality Disorder. Therefore, a discharge upgrade is not warranted.

(2) The applicant contends an upgrade of the discharge would allow veterans benefits. The Board considered this contention and determined that eligibility for Veteran's benefits do not fall within the purview of the Army Discharge Review Board (ADRB). Contact with a local office of the Department of Veterans Affairs may provide further assistance.

c. The Board determined that the discharge is, at this time, proper and equitable, considering the current evidence of record. The applicant has exhausted all available appeal options available with ADRB. However, the applicant/next of kin may still apply to the Army Board for Correction of Military Records. The applicant/next of kin is responsible for satisfying the burden of proof and providing documents or other evidence sufficient to support the applicant's contention(s) that the discharge was improper or inequitable.

d. Rationale for Decision:

(1) The Board voted not to change the applicant's characterization of service because there were no mitigating factors for the Board to consider. Since the applicant was discharged for failing medical procurement standards due to a personality disorder, Uncharacterized is proper and equitable. The discharge was consistent with the procedural and substantive requirements of the regulation, was within the discretion of the separation authority, and the applicant was provided full administrative due process.

(2) The Board voted to change the applicant's reason for discharge because of an administrative update to AR 635-200. Accordingly, the applicant's DD Form 214 should reflect the updated terminology now used in the regulation. The updated narrative reason for discharge is Condition, Not a Disability. The SPD code associated with the new reason is JFV.

(3) The RE code will not change, as the current code is consistent with the procedural and substantive requirements of the regulation.

10. BOARD ACTION DIRECTED:

- a. Issue a New DD-214 / Separation Order: Yes
- b. Change Characterization to: No Change
- c. Change Reason / SPD Code to: Condition, Not a Disability / JFV
- d. Change RE Code to: No Change
