

DEPARTMENT OF THE NAVY  
BOARD FOR CORRECTION OF NAVAL RECORDS  
2 NAVY ANNEX  
WASHINGTON DC 20370-5100

LCC:ddj  
Docket No: 7412-02  
19 November 2002

This is in reference to your application for correction of your naval record pursuant to the provisions of title 10 of the United States Code, section 1552.

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 19 November 2002. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, your naval record and applicable statutes, regulations and policies. In addition, the Board considered the advisory opinion furnished by NPC memorandum 1430 Ser 811/439 of 17 October 2002, a copy of which is attached.

After careful and conscientious consideration of the entire record, the Board found that the evidence submitted was insufficient to establish the existence of probable material error or injustice. In this connection, the Board substantially concurred with the comments contained in the advisory opinion.

The document you enclosed with your DD Form 149 to support your request for the Board to advance you to GM2c is the entry on your records which shows that you completed the training requirements which then made you eligible to take the exam for GM2c. If you had not completed the training requirements for GM2c you would not have been eligible to take the exam. Your record does not contain any document that shows you ever took the exam for GM2c.

Accordingly, your application has been denied. The names and votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently,

Docket No. 7412-02

when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

This action should not in anyway be considered as detracting from your outstanding Navy career

Sincerely,

W. DEAN PFEIFFER  
Executive Director
