

DEPARTMENT OF THE NAVY  
BOARD FOR CORRECTION OF NAVAL RECORDS  
701 S. COURTHOUSE ROAD, SUITE 1001  
ARLINGTON, VA 22204-2490

BJG  
Docket No: 3526-13  
12 February 2014

This is in reference to your application for correction of your naval record pursuant to the provisions of title 10 of the United States Code, section 1552.

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 11 February 2014. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, your naval record and applicable statutes, regulations and policies.

After careful and conscientious consideration of the entire record, the Board found that the evidence submitted was insufficient to establish the existence of probable material error or injustice.

You enlisted in the Navy and entered active duty on 22 February 2011. While at recruit training, you were diagnosed with asthma. You did not mention this at the time of your enlistment. You admitted that your twin sister was also an asthmatic. On 14 March 2011, you were administratively separated due to failed medical/physical procurement standards. You received an uncharacterized entry level separation, and were assigned a waivable RE-8 (failure to complete recruit training) reentry code.

In its review of your application, the Board carefully weighed all potentially mitigating factors, such as your youth and desire to change your reentry code. However, the Board concluded that your reentry code should not be changed due to your diagnosed asthma and failure to complete recruit training. In view of the above, your application has been denied. The names and votes of the members of the panel will be furnished upon request.

It is regretted that the circumstances of your case are such that favorable action cannot be taken. You are entitled to have the Board reconsider its decision upon submission of new and material evidence or other matter not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

ROBERT D. ZSALMAN  
Acting Executive Director
