BOARD FOR CORRECTION OF NAVAL RECORDS 701 S. COURTHOUSE ROAD, SUITE 1001 ARLINGTON, VA 22204-2490

Docket No: 7375-16

OCT 3 0 2017

Dear

This is in reference to your application for correction of your naval record pursuant to the provisions of title 10 of the United States Code, section 1552.

Although your application was not filed in a timely manner, the Board found it in the interest of justice to waive the statute of limitations and consider your application on its merits. A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 29 August 2017. The names and votes of the members of the panel will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, relevant portions of your naval record and applicable statutes, regulations and policies.

You enlisted in the Marine Corps on 5 September 1985. On 9 April 1987, your Commanding Officer assigned you to the weight control program. On 29 December 1987, you were counseled on your unsatisfactory progress and performance while in the weight control program. Subsequently, you were notified of pending administrative separation action by reason of unsatisfactory performance due to failure to conform to weight standards. After you waived your procedural rights, your Commanding Officer recommended a general discharge. The discharge authority approved this recommendation and directed a general discharge. On 1 July 1988, you were discharged.

After careful and conscientious consideration of the entire record, the Board found the evidence submitted was insufficient to establish the existence of probable material error or injustice. The Board carefully weighed all potentially mitigating factors, such as your desire to upgrade your discharge and assertion that you were under the assumption that your discharge would be upgraded automatically. However, the Board found that these factors were not sufficient to warrant recharacterization of your discharge given your failure to adhere to your command's

weight control program. The Board also noted that there is no provision in law or regulations that allows for re-characterization of a discharge automatically, due solely to the passage of time. Accordingly, your application has been denied.

It is regretted that the circumstances of your case are such that favorable action cannot be taken at this time. You are entitled to have the Board reconsider its decision upon the submission of new and material evidence. New evidence is evidence not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely.

Executive Director
