BOARD FOR CORRECTION OF NAVAL RECORDS
701 S. COURTHOUSE ROAD, SUITE 1001
ARLINGTON, VA 22204-2490

Docket No: 856-17
JAN 09 2018

Dear 

This is in reference to your applications for correction of your naval record pursuant to the provisions of Title 10, United States Code, Section 1552.

A three-member panel of the Board for Correction of Naval Records, sitting in executive session, considered your application on 19 October 2017. The Board considered the request to remove the specified 6105 counseling entries only because the Headquarters, Marine Corps Performance Evaluation Review Board (PERB) must review the request to remove the adverse fitness report prior to review by the Board. The names and votes of the members of the panel will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, relevant portions of your naval record and applicable statutes, regulations and policies.

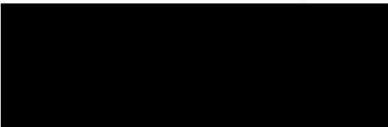

After careful and conscientious consideration of the entire record, the Board found the evidence submitted was insufficient to establish the existence of probable material error or injustice to remove your 6105 Page 11 counseling entries of 13 July 2015 and 15 July 2015. The Board considered your contention that the counseling entries were not justified. The Board also considered your contention that you had accountability of the radio and the command had no documentation to prove otherwise. Additionally, the Board noted the dates of your request mast. The Board determined the evidence gathered by the preliminary inquiry officer supported the command's decision to issue both 6105 counseling entries. Accordingly, your application has been denied.

It is regretted that the circumstances of your case are such that favorable action cannot be taken at this time. You are entitled to have the Board reconsider its decision upon the submission of new and material evidence. New evidence is evidence not previously considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all
