

DEPARTMENT OF THE NAVY
BOARD FOR CORRECTION OF NAVAL RECORDS
701 S. COURTHOUSE ROAD, SUITE 1001
ARLINGTON, VA 22204-2490

Docket No. 5082-23
Ref: Signature Date

Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although you did not file your application in a timely manner, the statute of limitation was waived in accordance with the 25 August 2017 guidance from the Office of the Under Secretary of Defense for Personnel and Readiness (Kurta Memo). A three-member panel of the Board, sitting in executive session, considered your application on 17 January 2024. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, applicable statutes, regulations, and policies, to include the Kurta Memo, the 3 September 2014 guidance from the Secretary of Defense regarding discharge upgrade requests by Veterans claiming post-traumatic stress disorder (PTSD)/mental health condition (MHC) (Hagel Memo), and the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice, or clemency determinations (Wilkie Memo). In addition, the Board considered an advisory opinion (AO) from a qualified mental health professional. Although you were provided an opportunity to respond to the AO, you chose not to do so.

You enlisted in the U.S. Navy and entered active duty on 25 June 1990. You received non-judicial punishment (NJP), on 26 September 1991, for unauthorized absence (UA) and failure to obey an order or regulation. You were subsequently issued a counseling warning that any further misconduct may result in disciplinary action and or processing for separation. On 2 April 1992, you received your second NJP for UA and failure to obey other lawful order. Consequently, on 22 June 1992, you were notified for separation for misconduct due to commission of a serious offense and you waived your rights. As a result, the Commanding Officer (CO) made his

recommendation to the Separation Authority (SA) that you be discharged and assigned an Other Than Honorable (OTH) characterization. The SA accepted the recommendation and directed your discharged. You were so discharged on 18 August 1992.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Kurta, Hagel, and Wilkie Memos. These included, but were not limited to, your desire for a discharge upgrade and contentions that you had a pattern of misconduct for which you apologize, but your conduct was due to family reasons and undiagnosed PTSD. You contend that your poor conduct was seriously impacted by your family issues and traumatic experiences while in the Navy. For purposes of clemency and equity consideration, the Board considered the evidence you provided in support of your application.

As part of the Board review process, the BCNR Physician Advisor who is a licensed clinical psychologist (Ph.D.), reviewed your contentions and the available records and issued an AO dated 28 November 2023. The Ph.D. stated in pertinent part:

There is no evidence that he was diagnosed with a mental health condition in military service, or that he exhibited any psychological symptoms or behavioral changes indicative of a diagnosable mental health condition. Post-service, he has received civilian treatment for diagnoses of PTSD and Alcohol Use Disorder that are temporally remote to military service and appear unrelated. Unfortunately, available records are not sufficiently detailed to establish clinical symptoms in service or provide a nexus with his misconduct. Additional records (e.g., post-service mental health records describing the Petitioner's diagnosis, symptoms, and their specific link to his misconduct) may aid in rendering an alternate opinion.

The Ph.D. concluded, "it is my clinical opinion there is insufficient evidence of a diagnosis of PTSD or another mental health condition that may be attributed to military service. There is insufficient evidence to attribute his misconduct to PTSD or another mental health condition."

After thorough review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your NJPs, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and found that your conduct showed a complete disregard for military authority and regulations. Further, the Board concurred with the AO and determined there is insufficient evidence of a diagnosis of PTSD or another mental health condition that may be attributed to military service. As explained in the AO, you received civilian treatment for diagnoses of PTSD and Alcohol Use Disorder that are temporally remote to military service and appear unrelated. Therefore, the Board concluded that your discharge was proper and equitable under standards of law and discipline and that the discharge accurately reflects your conduct during your period of service, which was terminated by your separation with an OTH. As a result, the Board concluded your conduct constituted a significant departure from that expected of a service member and continues to warrant an OTH characterization. While the Board carefully considered the evidence you submitted in mitigation and commends you for your post-discharge accomplishments, even in light of the Kurta, Hagel, and Wilkie Memos and reviewing the record

liberally and holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Ultimately, the Board concluded the mitigation evidence you provided was insufficient to outweigh the seriousness of your misconduct. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

1/24/2024
