Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although your application was not filed in a timely manner, the Board found it in the interest of justice to waive the statute of limitations and consider your application on its merits. A three-member panel of the Board, sitting in executive session, considered your application on 13 March 2024. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice or clemency determinations (Wilkie Memo).

You entered active duty with the Navy on 27 September 1988. On 16 January 1990, you went into an unauthorized absence (UA) status and remained until 28 January 1990. On 27 June 1990, you went into a UA status and remained until 23 July 1990. On 1 August 1990, you signed a report of medical history (Standard Form 93) stating you were in good health and taking no medication.

Unfortunately, documents pertinent to your separation are not in your official military personnel file (OMPF). Notwithstanding, the Board relies on a presumption of regularity to support the official actions of public officers and, in the absence of substantial evidence to the contrary, will presume that they have properly discharged their official duties. Your Certificate of Release or Discharge from Active Duty (DD Form 214), reveals that you were separated from the Navy on 3 August 1990 with an OTH characterization of service, your narrative reason for separation is "Commission of a Serious Offense," your separation code is "HKQ," and your reenlistment code is "RE-4."

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to, your desire to upgrade your discharge and contentions that your mental condition was not considered at the time of separation and your misconduct was due to a family emergency. The Board noted that you checked the "PTSD" box on your application but did not respond to the Board's request for supporting evidence of your claim. For purposes of clemency and equity consideration, the Board noted you did not provide supporting documentation describing post-service accomplishments or advocacy letters.

After thorough review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your unauthorized absences, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and the likely negative impact your conduct had on the good order and discipline of your command. Further, unexpectedly absenting yourself from your command placed an undue burden on your chain of command and fellow service members, and likely negatively impacted mission accomplishment. Finally, the Board noted that there is no evidence in your record, and you submitted none, to substantiate your contentions. As a result, the Board concluded your conduct constituted a significant departure from that expected of a service member and continues to warrant an OTH characterization. Even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

3/25/2024
