█

Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

A three-member panel of the Board, sitting in executive session, considered your application on 29 February 2024. The names and votes of the members of the panel will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, relevant portions of your naval record and applicable statutes, regulations and policies.

The Board determined your personal appearance, with or without counsel, would not materially add to their understanding of the issues involved. Therefore, the Board determined a personal appearance was not necessary and considered your case based on the evidence of record.

The Board carefully considered your request to remove the Detachment for Cause (DFC) documentation, to include the request, endorsements, and approval, and the 5 September 2023 Status in the Navy letter from your Official Military Personnel File (OMPF). You contend the derogatory material should be removed from your OMPF because all the charges pending in the U.S. District Court of █ were dismissed at the request of the prosecuting U.S. Attorney. Further, you contend removal is warranted because the █ Department of Motor Vehicles set aside the associated administrative actions. You contend the derogatory material and DFC “were results of these allegations that were found to be without merit” and their continued existence in your record has become “an enduring representation of an event and ensuing actions that have, through the due process of legal proceedings..., been both formally unsubstantiated by the proper federal and state authorities given the legal basis to do so.”

The Board, however, noted Commander, [REDACTED] acted within his discretionary authority when he requested your DFC after he lost confidence in your ability to command due to your 4 November 2022 alcohol-related motor vehicle accident following a squadron event. The Board specifically noted the endorsement by Commander, [REDACTED], stated “[t]he investigation provided clear and convincing evidence [you] were operating [your] vehicle while impaired.” Further, the Board noted the District Court’s dismissal, which is not binding on the command, did not state the allegations “were found to be without merit” nor did the federal court and state action “formally unsubstantiate” the “event and ensuing actions.” Based on the available evidence, the Board concluded there is insufficient evidence of an error or injustice warranting your requested relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

3/27/2024

[REDACTED]

Deputy Director
