

DEPARTMENT OF THE NAVY

BOARD FOR CORRECTION OF NAVAL RECORDS 701 S. COURTHOUSE ROAD, SUITE 1001 ARLINGTON, VA 22204-2490

> Docket No. 396-24 Ref: Signature Date

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although you did not file your application in a timely manner, the statute of limitations was waived in accordance with the 25 August 2017 guidance from the Office of the Under Secretary of Defense for Personnel and Readiness (Kurta Memo). A three-member panel of the Board, sitting in executive session, considered your application on 21 August 2024. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the Kurta Memo, the 3 September 2014 guidance from the Secretary of Defense regarding discharge upgrade requests by Veterans claiming post-traumatic stress disorder (PTSD)/mental health condition (MHC) (Hagel Memo), and the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice, or clemency determinations (Wilkie Memo). The Board also considered an advisory opinion (AO) from a qualified mental health professional, dated 29 May 2024. Although you were provided an opportunity to comment on the AO, you chose not to do so.

You entered active duty with the Marine Corps on 16 November 1999. You acknowledged the Marine Corps policy concerning illegal use of drugs during your enlistment process. On 23 March 2000, you received non-judicial punishment (NJP) for wrongful use of marijuana. Consequently, you were notified of pending administrative separation action by reason of misconduct due to drug abuse. On 29 March 2000, you received a drug and alcohol assessment that determined your drug use was an isolated incident, no treatment was required, you were psychologically fit for duty, and recommended you for administrative separation. After electing to make a written statement, your commanding officer (CO) forwarded your package to the

separation authority (SA) recommending your discharge by reason of misconduct due to drug abuse with an Other Than Honorable (OTH) characterization of service. The SA approved the CO's recommendation, and on 25 May 2000, you were so discharged.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Kurta, Hagel, and Wilkie Memos. These included, but were not limited to, your desire to upgrade your discharge to General (Under Honorable Conditions) (GEN) and contentions that you incurred mental health concerns (PTSD) that contributed to your separation from the Marine Corps, you were a good Marine recognized as a high shooter, and marijuana is now legal. For purposes of clemency and equity consideration, the Board considered the evidence you provided in support of your application.

As part of the Board's review, a qualified mental health professional reviewed your request and provided the Board with an AO. The mental health professional stated in pertinent part:

There is no evidence that Petitioner was diagnosed with a mental health condition in military service. He has provided no medical evidence to support his claims. Unfortunately, available records are not sufficiently detailed to establish clinical symptoms in service or provide a nexus with his misconduct, particularly given preservice behavior which appears to have continued in service. Additional records (e.g., post-service mental health records describing the Petitioner's diagnosis, symptoms, and their specific link to his misconduct) may aid in rendering an alternate opinion.

The AO concluded, "it is my clinical opinion there is insufficient evidence of a diagnosis of a mental health condition that may be attributed to military service. There is insufficient evidence to attribute his misconduct to a mental health condition."

After thorough review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined your misconduct, as evidenced by your NJP, outweighed the potential mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and the fact it involved a drug related offense. The Board determined that illegal drug use by a service member is contrary to military core values and policy, renders such members unfit for duty, and poses an unnecessary risk to the safety of their fellow service members. Additionally, contrary to your contention, the Board noted that marijuana use in any form is still against Department of Defense regulations and not permitted for recreational use while serving in the military. Further, the Board concurred with the AO that there is insufficient evidence your misconduct could be attributed a mental health condition or PTSD. As explained in the AO, you did not submit any medical evidence in support of your claim and your available records are not sufficiently detailed to establish clinical symptoms or provide a nexus with your misconduct. Therefore, the Board determined that the evidence of record did not demonstrate that you were not mentally responsible for your conduct or that you should not be held accountable for your actions.

As a result, the Board concluded your conduct constituted a significant departure from that expected of a service member and continues to warrant an OTH characterization. While the Board carefully considered the evidence you provided in mitigation, even in light of the Kurta, Hagel, and Wilkie Memos and reviewing the record liberally and holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Ultimately, the Board concluded the mitigation evidence you provided was insufficient to outweigh the seriousness of your misconduct. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.
