█

Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Title 10, United States Code, Section 1552. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although your application was not filed in a timely manner, the Board found it in the interest of justice to waive the statute of limitations and consider your case on its merits. A three-member panel of the Board, sitting in executive session, considered your application on 22 July 2024. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice, or clemency determinations (Wilkie Memo).

The Board determined that your personal appearance, with or without counsel, would not materially add to their understanding of the issues involved. Therefore, the Board determined that a personal appearance was not necessary and considered your case on the evidence of record.

During your enlistment processing you disclosed marijuana use and an obstructing of police offense for which you were granted an enlistment waiver. You enlisted in the Navy and commenced a period of active service on 19 May 1999. On 31 August 2001, you received nonjudicial punishment (NJP) for the wrongful use of marijuana.

Unfortunately, the documents related to your administrative separation are not in your official military personnel file (OMPF). In this regard, the Board relies on a presumption of regularity to support the official actions of public officers and, in the absence of substantial evidence to the contrary (as is the case at present), will presume that they have properly discharged their official

duties. Your Certificate of Release or Discharge from Active Duty (DD Form 214), reveals that you were separated from the Navy on 21 September 2001 with an Other Than Honorable (OTH) characterization of service, your narrative reason for separation is "Misconduct – Drug Abuse," your separation code is "JKK," and your reenlistment code is "RE-4."

Your previous discharge upgrade request was denied via the Naval Discharge Review Board (NDRB) on 4 September 2012.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to, your desire to upgrade your character of service and your contentions that: (1) you would like to use your GI Bill education benefits, and (2) you were pregnant and being away from family and home after giving birth took a toll on you. Additionally, the Board noted you checked the "Other Mental Health" box on your application but chose not to respond to the 26 February 2024 letter from the Board requesting evidence in support of your claim. For purposes of clemency and equity consideration, the Board noted you provided a copy of your DD Form 214.

After thorough review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your NJP, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and the fact that it included a drug offense. The Board determined that illegal drug use by a service member is contrary to military core values and policy, renders such members unfit for duty, and poses an unnecessary risk to the safety of their fellow service members. The Board noted marijuana use in any form is still against Department of Defense regulations and not permitted for recreational use while serving in the military. Finally, absent a material error or injustice, the Board declined to summarily upgrade a discharge solely for the purpose of facilitating veterans' benefits or enhancing educational or employment opportunities.

As a result, the Board concluded your conduct constituted a significant departure from that expected of a service member and continues to warrant an OTH. Even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon the submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity is attached to all official records. Consequently, when

applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

8/5/2024
