Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Title 10, United States Code, Section 1552. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Because your application was submitted with new evidence not previously considered, the Board found it in the interest of justice to review your application. A three-member panel of the Board, sitting in executive session, considered your application on 4 March 2024. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, applicable statutes, regulations, and policies, to include the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice or clemency determinations (Wilkie Memo).

On 20 May 2022, this Board denied your previous request for a discharge characterization upgrade. The facts of your case remain substantially unchanged.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included but were not limited to your desire for a discharge upgrade and contentions that: (a) during your previous request for an upgrade, you noticed that you needed to provide character reference letters to be considered for an upgrade, and (b) you were unable to get the letters in a much timely manner as you were sick and hospitalized. For purposes of clemency and equity consideration, the Board noted you did provide four character letters of support.

After thorough review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your

NJPs and SCM, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and the likely negative impact it had on the good order and discipline of your unit. The Board noted that you were given multiple opportunities to correct your conduct deficiencies but continued to commit misconduct. Finally, the Board found that your conduct showed a complete disregard for military authority and regulations. As a result, the Board concluded your conduct constituted a significant departure from that expected of a service member and continues to warrant an OTH characterization. While the Board carefully considered the evidence you submitted in mitigation, even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Ultimately, the Board concluded the mitigation evidence you provided was insufficient to outweigh the seriousness of your misconduct. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon the submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

3/25/2024
