CONCLUSION

Upon review and consideration of all the evidence of record, and especially in light of the contents of enclosure (2), the Board finds the existence of an error warranting the following corrective action. The Board concluded that on 29 March 2022, Petitioner was issued official modification to orders [REDACTED] with required obligated service to February 2026. At that time, a Zone B SRB was authorized in accordance with reference (c), however Petitioner was still in Zone A. On 28 April 2022, Petitioner entered Zone B. On 23 November 2022, Petitioner signed an agreement to extend enlistment for 15 months to meet the obligated service. The Board determined that Petitioner could have reenlisted upon entering Zone B in accordance with reference (b) and would have been eligible to reenlist for 5 years and receive a Zone B SRB on 21 October 2022.
