█

Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Title 10, United States Code, Section 1552. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although you did not file your application in a timely manner, the statute of limitation was waived in accordance with the 25 August 2017 guidance from the Office of the Under Secretary of Defense for Personnel and Readiness (Kurta Memo). A three-member panel of the Board, sitting in executive session, considered your application on 1 November 2024. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, applicable statutes, regulations, and policies, to include the Kurta Memo, the 3 September 2014 guidance from the Secretary of Defense regarding discharge upgrade requests by Veterans claiming post-traumatic stress disorder (PTSD)/mental health condition (MHC) (Hagel Memo), and the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice, or clemency determinations (Wilkie Memo). The Board also considered the advisory opinion (AO) furnished by a qualified mental health professional, dated 12 September 2024. Although you were afforded an opportunity to submit an AO rebuttal, you chose not to do so.

You enlisted in the Marine Corps on 7 March 1983 and later commenced active duty. Upon your enlistment, you admitted preservice arrest and being charged by civil authorities for traffic violations. On 6 July 1984, you began a period of unauthorized absence (UA) which lasted 268 days and resulted in your apprehension by civil authorities. On 17 April 1985, you requested an Other than Honorable (OTH) discharge characterization of service in lieu of trial by court martial. After your administrative proceedings were determined to be sufficient in law and fact, the separation authority approved your request. On 2 May 1985, you were so discharged.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Kurta, Hagel, and Wilkie Memos. These included, but were not limited to, your desire for a discharge upgrade and contentions that: (a) you faced extreme challenges with depression and anxiety due to being raised in a highly abusive household, (b) you were unaware that there were counseling services available to you, (c) you regret the choices you made during that period of your life, (d) you have worked as a DoD civilian and were entrusted with a DISCO top secret clearance, (e) you have worked diligently in █, █, █, and █ contributing to the renovation and construction of embassies, (f) there is a possibility that your cancer diagnosis was the result of your time stationed at █ and the contaminated water situation. For purposes of clemency and equity consideration, the Board noted you submitted two character letters of support.

As part of the Board's review, the Board considered the AO. The AO stated in pertinent part:

There is no evidence that he was diagnosed with a mental health condition in military service, or that he exhibited any psychological symptoms or behavioral changes indicative of a diagnosable mental health condition. He has provided no medical evidence in support of his claims. Unfortunately, his personal statement is not sufficiently detailed to establish clinical symptoms in service or provide a nexus with his misconduct. Additional records (e.g., post-service mental health records describing the Petitioner's diagnosis, symptoms, and their specific link to his misconduct) may aid in rendering an alternate opinion.

The AO concluded, "it is my clinical opinion that, while there is insufficient evidence of a mental health condition that may be attributed to military service. There is insufficient evidence to attribute his misconduct to a mental health condition."

After thorough review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your lengthy period of UA and request to be discharge in lieu of trial by court martial, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and the likely negative impact it had on the good order and discipline of your unit. The Board also noted that the misconduct that led to your request to be discharged in lieu of trial by court-martial was substantial and determined that you already received a large measure of clemency when the convening authority agreed to administratively separate you in lieu of trial by court-martial; thereby sparing you the stigma of a court-martial conviction and possible punitive discharge. Further, the Board concurred with the AO that there is insufficient evidence that your misconduct could be attributed to a mental health condition. As explained in the AO, no evidence that you were diagnosed with a mental health condition in military service, or that you exhibited any psychological symptoms or behavioral changes indicative of a diagnosable mental health condition. Therefore, the Board determined that the evidence of record did not demonstrate that you were not mentally responsible for your conduct or that you should not be held accountable for your actions.

As a result, the Board concluded your conduct constituted a significant departure from that expected of a service member and continues to warrant an OTH characterization. While the

Board carefully considered the evidence you submitted in mitigation and commends you for your post-discharge accomplishments, even in light of the Kurta, Hagel, and Wilkie Memos and reviewing the record liberally and holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Ultimately, the Board concluded the mitigation evidence you provided was insufficient to outweigh the seriousness of your misconduct. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

Regarding your assertion concerning exposure to contaminated water at █ Public Law 112-154, Honoring America's Veterans and Caring for █ Families Act of 2012, requires the Veterans Administration to provide health care to Veterans with one or more of 15 specified illnesses or conditions. You should contact the nearest office of the Department of Veterans Affairs (DVA) concerning your right to apply for benefits or appeal an earlier unfavorable determination.

You are entitled to have the Board reconsider its decision upon the submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

11/25/2024
