Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Because your application was submitted with new evidence not previously considered, the Board found it in the interest of justice to review your application. Your current request has been carefully examined by a three-member panel of the Board, sitting in executive session on 25 September 2024. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice or clemency determinations (Wilkie Memo).

The Board determined that your personal appearance, with or without counsel, would not materially add to their understanding of the issues involved. Therefore, the Board determined that a personal appearance was not necessary and considered your case based on the evidence of record.

You previously applied to this Board for a discharge upgrade and were denied on 13 December 2005 and 10 October 2018. The facts of your case remain substantially unchanged.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but was not limited, your request to upgrade your characterization of service and contentions that it has taken you years to obtain an identification so you can be seen by the Department of Veterans Affairs, you served from 1974-1979, and you did four years plus and were deprived of medical school in "B" training. The Board noted you checked the "PTSD" and

“Other Mental Health” boxes on your application but did not respond to the Board’s request for supporting evidence of your claim. For purposes of clemency and equity consideration, the Board noted you did not provide supporting documentation describing post-service accomplishments or advocacy letters.

After thorough review, the Board concluded that your potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your special court-martial, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and found that your conduct showed a complete disregard for military authority and regulations. The Board noted the length of your unauthorized absences and the fact you were apprehended on three of the UAs. Further, the Board noted that you contended you served four years plus, but you were UA for over 800 days during your enlistment. Finally, absent a material error or injustice, the Board declined to summarily upgrade a discharge solely for the purpose of facilitating veterans’ benefits or enhancing educational or employment opportunities. Therefore, the Board concluded that your discharge was proper and equitable under standards of law and discipline and that the discharge accurately reflects your conduct during your period of service, which was terminated by your separation with a BCD.

As a result, the Board concluded your conduct constituted a significant departure from that expected of a service member and continues to warrant a BCD. Even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

10/11/2024
