Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although your application was not filed in a timely manner, the Board found it in the interest of justice to waive the statute of limitations and consider your application on its merits. A three-member panel of the Board, sitting in executive session, considered your application on 28 August 2024. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice or clemency determinations (Wilkie Memo).

You enlisted in the U.S. Marine Corps and began a period of active duty on 5 January 2015. You received non-judicial punishment (NJP), on 5 October 2015, for failure to obey a lawful general order and failure to obey a lawful order. On 29 December 2017, you received your second NJP for failure to go to your appointed place of duty. During your period of active duty, you were issued seven counseling warnings for your failure to obey orders, belligerent and disrespectful to non-commission officers, not being within weight standards, and unauthorized absence (UA).

Consequently, you were notified of administrative separation processing for misconduct pattern of misconduct. After you waived your rights, the Commanding Officer (CO) made his recommendation to the Separation Authority (SA) that you be discharged with an Other Than Honorable (OTH) characterization. The SA accepted the recommendation and directed you be discharged for commission of a serious offense. You were so discharged on 3 April 2018.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to, your desire for a discharge upgrade and contention that it should be upgraded based on the Department of Veterans Affairs (VA) eligibility determination in your case. For purposes of clemency and equity consideration, the Board considered the evidence you provided in support of your application.

After thorough review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your NJPs and counseling warnings, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and found that your conduct showed a complete disregard for military authority and regulations. Further, the Board noted that you were given multiple opportunities to correct your conduct deficiencies but chose to continue to commit misconduct. Finally, the Board noted that VA eligibility determinations for health care, disability compensation, and other VA-administered benefits are for internal VA purposes only. Such VA eligibility determinations, disability ratings, and/or discharge classifications are not binding on the Department of the Navy and have no bearing on previous active duty service discharge characterizations. Therefore, the Board was not persuaded by your contention.

As a result, the Board concluded your conduct constituted a significant departure from that expected of a service member and continues to warrant an OTH characterization. Even in light of Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

9/12/2024
