Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although your application was not filed in a timely manner, the Board found it in the interest of justice to waive the statute of limitations and consider your application on its merits. A three-member panel of the Board, sitting in executive session, considered your application on 18 December 2024. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice or clemency determinations (Wilkie Memo).

You entered active duty with the Navy on 18 December 1984. Upon enlistment, you admitted to prior service marijuana use and acknowledged the Navy's Policy concerning illegal use of drugs. On 9 July 1985, a Drug and Alcohol Abuse Report noted you completed a Level I treatment program due to public drunkenness. On 26 February 1986, you received an evaluation from the Counseling and Assistance Center (CAAC), which determined you were not drug or alcohol dependent. On 26 March 1986, you received non-judicial punishment (NJP) for three specifications of wrongful use and possession of marijuana and possession of drug paraphernalia. That same day, a Drug and Alcohol Report determined you exhibited no potential for future Naval service. Consequently, you were notified of pending administrative separation action by reason of misconduct due to drug abuse. After electing to waive your rights, your commanding officer (CO) forwarded your package to the separation authority (SA) recommending your discharge with an Other Than Honorable (OTH) characterization of service. The SA approved the CO's recommendation, and you were discharged for drug abuse on 14 April 1986.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to, your desire for a discharge upgrade and contentions that your command failed to offer you rehabilitation and you intended to make the Navy a career. The Board noted that you checked the "TBI" and "Other Mental Health" boxes on your application but did not respond to the Board's request for supporting evidence of your claims. For purposes of clemency and equity consideration, the Board noted you did not provide supporting documentation describing post-service accomplishments or advocacy letters.

After thorough review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined your misconduct, as evidenced by your NJP, outweighed the potential mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and the fact it involved a drug related offense. The Board determined that illegal drug use and possession by a service member is contrary to military core values and policy, renders such members unfit for duty, and poses an unnecessary risk to the safety of their fellow service members. The Board also considered the likely negative impact your conduct had on the good order and discipline of your command. Finally, regarding your contention about the lack of rehabilitation treatment, the record shows that you completed Level I rehabilitation treatment prior to your drug abuse, and after your drug offenses, you were determined not to be drug or alcohol dependent.

As a result, the Board concluded your conduct constituted a significant departure from that expected of a service member and continues to warrant an OTH characterization. Even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

1/17/2025
