████████████████████

Dear ██████████

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your father's naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although your application was not filed in a timely manner, the Board found it in the interest of justice to waive the statute of limitations and consider your application on its merits. A three-member panel of the Board, sitting in executive session, considered your application on 9 October 2024. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice or clemency determinations (Wilkie Memo).

You entered active duty with the Navy on 22 July 2008. On 1 June 2010, you received an Evaluation Report as a result of your pending administrative separation from the Navy due to drug abuse.

Unfortunately, documents pertinent to your administrative separation are not in your official military personnel file (OMPF). Notwithstanding, the Board relies on a presumption of regularity to support the official actions of public officers and, in the absence of substantial evidence to the contrary, will presume that they have properly discharged their official duties. Your Certificate of Release or Discharge from Active Duty (DD Form 214), reveals that you were separated from the Navy on 1 June 2010 with an OTH characterization of service, your narrative reason for separation is "Misconduct (Drug Abuse)," your separation code is "HKK," and your reenlistment code is "RE-4."

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to, your desire to upgrade your discharge to Honorable and add service medals to your DD Form 214. You contend that you were experiencing post-traumatic stress disorder (PTSD), your command ignored your request for help, and your PTSD was the result of experiencing harsh living and working environments. You further contend that you were discharged because you refuse to identify others that were involved in a drug and alcohol incident and you are currently working as a facility maintenance coordinator for the Maine National Guard. The Board also noted you checked the "PTSD" and "Other Mental Health" boxes on your application but did not respond to the Board's request for supporting evidence. For purposes of clemency and equity consideration, the Board considered the evidence you provided in support of your application.

After thorough review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your discharge for drug use, outweighed the mitigating evidence in your case. In making this finding, the Board considered the seriousness of your misconduct and the fact it involved a drug related offense. The Board determined that illegal drug use by a service member is contrary to military core values and policy, renders such members unfit for duty, and poses an unnecessary risk to the safety of their fellow service members. Finally, the Board noted that there is no evidence in your record, and you submitted none, to support your contentions.

As a result, the Board concluded your conduct constituted a significant departure from that expected of a service member and continues to warrant an OTH characterization. While the Board commends your post-discharge accomplishments and carefully considered the evidence you submitted in mitigation, even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Ultimately, the Board concluded the mitigated evidence you provided was insufficient to outweigh the seriousness of your misconduct. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

Regarding your request to add awards to your DD Form 214, the Board observed that you have not yet exhausted your administrative remedies by requesting an administrative correction with the Commander, Navy Personnel Command. Should you choose to pursue this correction, you may submit a request to Commander, Naval Personnel Command (PERS 312D1), at: 5720 Integrity Drive, Millington, TN 38055-3120.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when

applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

11/5/2024
