Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Title 10, United States Code, Section 1552. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although your application was not filed in a timely manner, the Board found it in the interest of justice to waive the statute of limitations and consider your application on its merits. A three-member panel of the Board, sitting in executive session, considered your application on 21 October 2024. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, applicable statutes, regulations, and policies, to include the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice, or clemency determinations (Wilkie Memo).

Regarding your request for a personal appearance, the Board determined that a personal appearance with or without counsel will not materially add to their understanding of the issue(s) involved. Therefore, the Board determined that a personal appearance was not necessary and considered your case based on the evidence of record.

You enlisted in the Navy and began a period of active duty on 21 May 1984. Upon your enlistment, you admitted preservice use of marijuana. Between 9 September 1984 and 15 January 1985, you had two periods of unauthorized absence (UA) totaling 124 days. On 29 January 1985, you received nonjudicial punishment (NJP) for the two periods of UA and larceny. Consequently, you were notified of the initiation of administrative separation proceedings by reason of misconduct due to commission of a serious offense, at which point, you decided to waive your procedural rights. Your commanding officer recommended an Other Than Honorable (OTH) discharge characterization of service by reason of misconduct due to commission of a

serious offense. The separation authority approved the recommendation, and on 12 Mar 1985, you were so discharged.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included but were not limited to your desire for a discharge upgrade and contention that: (a) you were assaulted by an officer, spit on, and you pushed back, (b) you did not feel like the incident was totally your fault and you were provoked. For purposes of clemency and equity consideration, the Board noted you did not provide supporting documentation describing post-service accomplishments or advocacy letters.

After thorough review, the Board concluded these potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your by your NJP, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and found that your conduct showed a complete disregard for military authority and regulations. Further, the Board considered the likely negative effect your conduct had on the good order and discipline of your unit. Finally, the Board noted you provided no evidence, other than your statement, to substantiate your contentions. However, the Board observed that you were not processed for administrative separation based on an assault against an officer; rather, you were separated due to an extended period of UA and larceny.

As a result, the Board concluded your conduct constituted a significant departure from that expected of a service member and continues to warrant an OTH characterization. Even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon the submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

11/13/2024
