Dear ██████████,

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although your application was not filed in a timely manner, the Board found it in the interest of justice to waive the statute of limitations and consider your case on its merits. A three-member panel of the Board, sitting in executive session, considered your application on 20 March 2025. The names and votes of the members of the panel will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. On 5 September 2000, your Reporting Senior signed your FD USMC Fitness Report (NAVMC 10835A) for the period of 17 April 2000 to 5 September 2000 while you were an Intelligence Analyst. Furthermore, block 1g (PMOS) listed 2111 and block 1h (BILMOS) listed 0231.

You were released from active duty with an honorable character of service and were issued a DD Form 214 for the period of 16 April 2000 to 22 September 2000 upon completion of required active service. Furthermore, block 11 (Primary specialty) listed 0151 Administrative Clerk (5 months).

On 3 January 2001, you signed an agreement to extend enlistment for 3 months with an end of current contract of 30 March 2001 upon having sufficient obligated service to complete reenlistment request.

You requested to add the MOS of 0231 to your DD Form 214 with the Date of Separation of 22 September 2000, the Board in its review of your entire record and application, carefully weighed all potentially mitigating factors, to include your assertions. You assert that your DD Form 214 only lists the MOS 0151-Administration Clerk, however you were working in an 0231 billet- Intelligence Specialist. However, the Board concluded that in accordance with Marine Corps Order 1200.17, "This MOS will be assigned and voided only by the CMC (MM)." The Board agreed that although several of your NAVMC 10835As listed a Billet MOS of 0231, the Board found no evidence that you were ever assigned MOS 0231 by Headquarters, U.S. Marine Corps. Therefore, the Board determined that a change to your record is not warranted.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

4/2/2025
