

DEPARTMENT OF THE NAVY

BOARD FOR CORRECTION OF NAVAL RECORDS 701 S. COURTHOUSE ROAD, SUITE 1001 ARLINGTON, VA 22204-2490

> Docket No. 10488-24 Ref: Signature Date

Dear ,

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

A three-member panel of the Board, sitting in executive session, considered your application on 3 December 2024. The names and votes of the members of the panel will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations, and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, as well as the decision furnished by the Marine Corps Performance Evaluation Review Board (PERB), and decision furnished by the Marine Corps Performance Evaluation Review Board (PERB), and decision Records and Performance Branch. The AO was provided to you on 11 September 2024, and you were given 30 days in which to submit a response. Although you were afforded an opportunity to submit a rebuttal, you did not do so.

The Board carefully considered your request to remove the fitness report for the reporting period 2 April 2022 to 23 June 2022. The Board considered your contention that the reporting period covered 83 days, and the reporting chain relationship was unchanged from the previous reporting period. You also contend that the fitness report was sent to the wrong Reviewing Officer (RO) despite not interacting with him during the reporting period. You claim that you were tasked by your former RO, and as evidence, you furnished correspondence from him.

The Board, however, substantially concurred with the PERB's decision that you did not meet the burden of proof nor shown by preponderance of evidence a substantive inaccuracy or injustice warranting removal of your fitness report. The Board determined that your fitness report is valid as written and filed in accordance with the applicable Marine Corps Performance Evaluation System (PES) Manual. The Board carefully considered the correspondence from your former RO, however found no error or injustice in acting as the RO. In this regard, the RO's

comments begin with his acknowledgment that, "I have had adequate observation time of . . ." The Board also noted that the RO observed your performance during a previous reporting period. The Reporting Senior issued a not observed report; however, RO's are not beholden to minimum periods of observation. The Board determined that the RO acted in compliance with the PES Manual by specifically indicating that he had adequate observation time. The Board found your evidence insufficient to conclude that the RO's assessment of your performance is invalid. The Board thus concluded there is no probable material error, substantive inaccuracy, or injustice warranting corrective action. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.
