This is in reference to your application for correction of your naval record pursuant to Title 10, United States Code, Section 1552. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

You previously applied to this Board for a discharge upgrade and were denied on 30 October 2017. The summary of your service remains substantially unchanged from that addressed in the Board's previous decision.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to your desire for a discharge upgrade and contentions that: (a) you were 17 years of age at the time of enlistment and lacked the emotional maturity and life experience necessary to fully comprehend the gravity of military service, (b) at the time of your discharge, the USMC acknowledged the circumstances surrounding your discharge, to include your youth and pre-existing marijuana use, (c) you were informed that you will have the opportunity to upgrade your discharge to General (Under Honorable Conditions) at a later time. Additionally, you checked the “PTSD” and “Other Mental Health” boxes on your application but
