BOARD FOR CORRECTION OF NAVAL RECORDS
701 S. COURTHOUSE ROAD, SUITE 1001
ARLINGTON, VA 22204-2490

[REDACTED]
Docket No. 1274-25
Ref: Signature Date

From: Chairman, Board for Correction of Naval Records
To: Secretary of the Navy

Subj: REVIEW OF NAVAL RECORD OF [REDACTED]
[REDACTED]

Ref: (a) 10 U.S.C. § 1552

Encl: (1) DD Form 149 w/enclosures
(2) Petitioner Duty Status Recommendation, 29 Apr 24
(3) Petitioner Office and Clinical Notes, 7 May 24
(4) NAVMC 118(11) Administrative Remarks (6105), 22 Oct 24
(5) [REDACTED], MC, USN Aeromedical Examiner, Navy Medicine Readiness and Training Command [REDACTED] ltr, subj: LIMDU Status ICO Petitioner, 27 Jan 25

1. Pursuant to the provisions of reference (a), Subject, hereinafter referred to as Petitioner, filed enclosure (1) with the Board for Correction of Naval Records (Board), that his naval record be corrected by removing enclosure (4).

2. The Board, consisting of [REDACTED] reviewed Petitioner's allegations of error and injustice on 11 June 2025, and pursuant to its regulations, determined the corrective action indicated below should be taken on the available evidence of record. Documentary material considered by the Board consisted of the enclosures, relevant portions of Petitioner's naval records, and applicable statutes, regulations, and policies.

3. Before applying to this Board, Petitioner exhausted all administrative remedies available under existing law and regulations within the Department of the Navy. The Board, having reviewed all the facts of record pertaining to Petitioner's allegations of error and injustice finds the following:

a. On 29 April 2024, Petitioner was placed on light duty restricting him from performing the Marine Corps physical fitness test (PFT) or combat fitness test (CFT) until 27 May 2024. Enclosure (2).

b. On 7 May 2024, Petitioner presented to medical for a PFT/CFT waiver. The clinic note indicates that Petitioner has a healing right radial head fracture and right elbow injury. Enclosure (3).

c. On 22 October 2024, Petitioner was issued a 6105 entry counseling him for failing to complete the semi-annual PFT requirement between 1 January 2024 and 30 June 2024, which he

was required to do. Petitioner acknowledged the entry and elected not to submit a statement. Enclosure (4).

d. On 27 January 2025, the Aeromedical Examiner, Navy Medicine Readiness and Training Command [REDACTED] submitted correspondence to Petitioner's Commanding Officer (CO) for consideration. The Aeromedical Examiner—a medical officer and qualified medical provider, confirmed that Petitioner sustained a significant injury for which duty limitations were recommended from 7 May 2024 to 30 November 2024. The medical officer confirmed that Petitioner was not fit to participate in the 2024 PFT and recommended a full waiver due to medical necessity. Enclosure (5).

e. In his application, Petitioner contends he was placed on limited duty due to a broken radial bone. Petitioner claims he only received light duty paperwork and medical failed to provide limited duty paperwork which would have waived him from the calendar year 2024 PFT. Petitioner also claims he was physically incapable of running a partial or a complete PFT. Enclosure (1).

CONCLUSION

Upon review and consideration of all the evidence of record, the Board finds the existence of an injustice warranting relief. The Board determined Petitioner's contention that he was unable to complete a PFT due to medical reasons has merit. The Board noted Petitioner's 6105 entry and found it administratively correct. The Board, however, noted the correspondence from the Aeromedical Examiner recommending a full medical waiver for the 2024 PFT cycle. The medical officer confirmed that limited duty was never initiated although it would have been recommended due to the nature of Petitioner's injury and rehabilitation. The medical officer also determined that Petitioner was not fit to participate in the 2024 PFT cycle and recommended Petitioner be granted a full waiver. In the interest of justice, the Board determined that Petitioner's 6105 entry should be removed.

RECOMMENDATION

In view of the above, the Board directs the following corrective action:

Petitioner's naval record be corrected by removing enclosure (4).

Any material or entries inconsistent with or relating to the Board's recommendation be corrected, removed, or completely expunged from Petitioner's record, and that no such entries or material be added to the record in the future. This includes, but is not limited to, all information systems or database entries that reference or discuss the expunged material.

4. It is certified that a quorum was present at the Board's review and deliberations, and that the foregoing is a true and complete record of the Board's proceedings in the above entitled matter.

5. Pursuant to the delegation of authority set out in Section 6(e) of the revised Procedures of the Board for Correction of Naval Records (32 Code of Federal Regulation, Section 723.6(e)) and
