█
█
Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although your application was not filed in a timely manner, the Board found it in the interest of justice to waive the statute of limitations and consider your case on its merits. A three-member panel of the Board, sitting in executive session, considered your application on 23 May 2025. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice, or clemency determinations (Wilkie Memo).

You enlisted in the Navy and commenced active duty on 26 March 1985. Prior to enlisting, on 18 March 1985, you signed the Navy Drug & Alcohol Abuse Statement of Understanding. On 1 March 1986, you received non-judicial punishment (NJP) for failure to obey a lawful order or regulation. Additionally, you were issued an administrative remarks (Page 13) counseling concerning deficiencies in your performance and/or conduct. You were advised that any further deficiencies in your performance and/or conduct may result in disciplinary action and in processing for administrative discharge. Subsequently, you tested positive during a command directed urinalysis. Consequently, you were notified of administrative separation processing for misconduct due to drug abuse. You waived your rights in relation to the separation process but elected to obtain copies of documents used in the separation process.

Unfortunately, some documents pertinent to your administrative separation are not in your official military personnel file (OMPF). Notwithstanding, the Board relies on a presumption of regularity to support the official actions of public officers and, in the absence of substantial

evidence to the contrary, will presume that they have properly discharged their official duties. Your Certificate of Release or Discharge from Active Duty (DD Form 214) reveals that you were separated, on 19 April 1988, with a “Under Honorable Conditions (General)” characterization of service, narrative reason for separation of “Misconduct – Drug Abuse,” separation code of “GKK,” and your reentry code of “RE-4.”

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to, your desire to upgrade your characterization of service and contentions that you are suffering from thoracic cancer and Parkinson’s Disease. For purposes of clemency and equity consideration, the Board considered the totality of your application; which included your petition and birth certificate.

After thorough review, the Board concluded your potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your NJP and positive urinalysis, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and the fact it involved a drug offense. The Board determined that illegal drug use by a service member is contrary to military core values and policy, renders such members unfit for duty, and poses an unnecessary risk to the safety of their fellow service members. The Board also noted that there is no provision of federal law or in Navy/Marine Corps regulations that allows for a discharge to be automatically upgraded after a specified number of months or years.

As a result, the Board determined that there was no impropriety or inequity in your discharge and concluded that your misconduct and disregard for good order and discipline clearly merited your discharge. Although the Board is sympathetic to your health concerns, even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

6/12/2025
