BOARD FOR CORRECTION OF NAVAL RECORDS 701 S. COURTHOUSE ROAD, SUITE 1001 ARLINGTON, VA 22204-2490

> Docket No. 1722-25 Ref: Signature Date

Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

A three-member panel of the Board, sitting in executive session, considered your application on 27 August 2025. The names and votes of the members of the panel will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, relevant portions of your naval record and applicable statutes, regulations and policies, as well as the 19 February 2025 decision by the Marine Corps Performance Evaluation Review Board (PERB) and 31 January 2025 Advisory Opinion (AO) provided to the PERB by the Headquarters Marine Corps Performance Evaluation Section (MMPB-23). Although you were afforded an opportunity to submit a rebuttal, you chose not to do so.

The Board determined your personal appearance, with or without counsel, would not materially add to their understanding of the issues involved. Therefore, the Board determined a personal appearance was not necessary and considered your case based on the evidence of record.

The Board carefully considered your request to remove the fitness report for the reporting period 3 February 2022 to 1 August 2022 due to the relative value of the report and Section I comments "not matching." Further, you contend the contested report, in the opinion of your field sponsor, is "the only reason why [you] would get passed for promotion."

The Board, however, determined the fitness report was valid as written and filed, in accordance with the applicable Performance Evaluation System (PES) Manual guidance. The Board, concurring with the AO, determined there is no prescribed PES Manual scale to "match" Reporting Senior comments and attribute markings; nor is any such scale feasible or viable. Further, the Board noted you failed to specify the markings and comments that were in error or

unjust. Based on the available evidence, the Board concluded there is insufficient evidence of an error or injustice warranting removal or modification of the fitness report. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.
