█  
  
Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

A three-member panel of the Board, sitting in executive session, considered your application on 3 September 2025. The names and votes of the members of the panel will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations, and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, as well as the 11 February 2025 decision furnished by the Marine Corps Performance Evaluation Review Board (PERB) and 3 February 2025 advisory opinion (AO) provided to the PERB by the Manpower Management Division Records and Performance Branch. The AO was provided to you and you were given 30 days in which to submit a response. Although you were afforded an opportunity to submit a rebuttal, you chose not to do so.

The Board carefully considered your request to modify your fitness report for the reporting period 8 June 2022 to 27 June 2023 by making the Reporting Senior (RS) portion not observed. The Board considered your contention that the RS correspondence to the promotion board stating, "I request the briefer focus on my Section I input vice the Relative Value" substantiates the fitness report as inaccurate.

The Board, however, substantially concurred with the PERB's decision that you did not demonstrate probable material error, substantive inaccuracy, or injustice warranting modification of your fitness report. The Board determined that your fitness report is valid as written and filed in accordance with the applicable Marine Corps Performance Evaluation System (PES) Manual. The Board also determined that your RS's correspondence to the PSB's is not tantamount to an endorsement for the removal or modification of your fitness report. The correspondence was intended to offer context for the PSB's consideration regarding your placement in the RS's

profile as compared to the relative value. The Board thus concluded there is no probable material error, substantive inaccuracy, or injustice warranting corrective action. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

9/22/2025
