■■■■■■■■■■

Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Because your application was submitted with new contentions not previously considered, the Board found it in the interest of justice to review your application. Your current request has been carefully examined by a three-member panel, sitting in executive session on 9 June 2025. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice, or clemency determinations (Wilkie Memo).

You previously applied to this Board for an upgrade to your characterization of service and disability discharge where you contended that your discharge was unjust because you received insufficient medical attention following a serious accident and attempted to self-medicate with marijuana. The Board denied your request on 26 August 2016. The summary of your service remains substantially unchanged from that addressed in the Board's previous decision.

The Board carefully considered all potentially mitigating factors to determine whether the interests of justice warrant relief in your case in accordance with the Wilkie Memo. These included, but were not limited to, your desire to change your discharge characterization of service and your contentions that you believe your bloodstream was affected by older Marines smoking in your barracks room, your request to retake your urinalysis and change rooms was denied, and that you desire benefits from the Department of Veterans Affairs (VA). For purposes of clemency and equity consideration, the Board considered the totality of your

application; which consisted solely of your DD Form 149 without any other additional documentation.

After thorough review, the Board concluded your potentially mitigating factors were insufficient to warrant relief. Specifically, the Board determined that your misconduct, as evidenced by your non-judicial punishments, outweighed these mitigating factors. In making this finding, the Board considered the seriousness of your misconduct and the fact it involved a drug offense. The Board determined that illegal drug use by a service member is contrary to military core values and policy, renders such members unfit for duty, and poses an unnecessary risk to the safety of their fellow service members. The Board also found that your conduct showed a complete disregard for military authority and regulations. The Board observed you were given an opportunity to correct your conduct deficiencies but chose to continue to commit misconduct; which led to your OTH discharge. Your conduct not only showed a pattern of misconduct but was sufficiently pervasive and serious to negatively affect the good order and discipline of your command.

Further, the Board also noted you provided no evidence, other than your statement, to substantiate your contentions. The Board considered the inconsistency between your current contention of innocent ingestion with your prior contention of self-medication and questioned your reliability as a historian and your candor in this matter. Finally, absent a material error or injustice, the Board declined to summarily upgrade a discharge solely for the purpose of facilitating veterans' benefits or enhancing educational or employment opportunities.

As a result, the Board determined that there was no impropriety or inequity in your discharge and concluded that your misconduct and disregard for good order and discipline clearly merited your discharge. Even in light of the Wilkie Memo and reviewing the record holistically, the Board did not find evidence of an error or injustice that warrants granting you the relief you requested or granting relief as a matter of clemency or equity. Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

6/30/2025
