1. Pursuant to the provisions of reference (a), Subject, hereinafter referred to as Petitioner, filed enclosure (1) with the Board for Correction of Naval Records, hereinafter referred to as the Board, pursuant to the guidance in reference (b). Specifically, Petitioner requested that his record be corrected to reflect that he was never separated from the Marine Corps and that he has continued to serve without interruption.

2. The Board, consisting of [REDACTED], [REDACTED], and [REDACTED], reviewed Petitioner's allegations of error and injustice on 22 April 2025 and, pursuant to its governing policies and procedures, determined that the corrective action reflected in paragraph 5 below should be taken upon Petitioner's naval record in the interests of justice. Documentary material considered by the Board included the enclosures, relevant portions of Petitioner's naval record, applicable statutes, regulations, and policies.

3. Factual Background. Following are the relevant facts of Petitioner's case based upon review

Subj: REVIEW OF NAVAL RECORD OF [REDACTED]
[REDACTED] XXX XX [REDACTED] USMC

of his naval record and/or the matters provided with his application:

- a. On 23 April 2018, Petitioner enlisted in the Marine Corps for a period of four years.
- b. Petitioner entered active duty in the Marine Corps pursuant to the enlistment described in paragraph 3a above on 13 August 2018. See enclosure (2).
- c. On 28 September 2021, Petitioner was counseled concerning his refusal of the former COVID-19 vaccination mandate of reference (d).
- d. On 11 April 2022, Petitioner was involuntarily discharged from the Marine Corps for misconduct due to commission of a serious offense with a general (under honorable conditions) characterization of service¹. The serious offense in question was his refusal to comply with the former COVID-19 vaccination mandate of reference (c) in violation of Article 92, Uniform Code of Military Justice. See enclosure (2).
- e. There is no evidence in Petitioner's record supporting any reasonable basis for involuntary discharge unrelated to his refusal to comply with the former COVID-19 vaccination mandate.
- f. By memorandum dated 18 April 2025, Headquarters, Marine Corps (HQMC) certified that Petitioner was prescreened in accordance with reference (b) and determined to meet retention standards. See enclosure (3).

4. Conclusion. Upon careful review and consideration of all the evidence of record, the Board found an injustice warranting relief.

a. According to reference (e), the COVID-19 vaccine mandate was an "unfair, overbroad, and completely unnecessary burden on our Service members" and the military "unjustly discharged those who refused the vaccine." Since there was no other basis for administrative separation apparent in Petitioner's naval record, the Board therefore found an injustice in that Petitioner was involuntarily separated from the Marine Corps solely for refusing the former COVID-19 vaccination mandate.

b. Having found an injustice in that Petitioner was involuntarily separated from the Marine Corps solely for refusing the former COVID-19 vaccination mandate, the Board also found an injustice in any and all adverse actions that followed from or contributed to that separation.

5. Recommendations. Having found an injustice in that Petitioner was involuntarily separated from the Marine Corps solely for refusing the former COVID-19 vaccination mandate, the Board recommends that the following corrective actions be taken on Petitioner's naval record.

¹ The Naval Discharge Review Board (NDRB) subsequently upgraded Petitioner's character of service to honorable and changed his narrative reason for separation to "Secretarial Authority."

a. The following recommended corrective actions are contingent upon Petitioner's agreement to serve for four additional years of active duty starting on the date of his reinstatement²:

(1) That HQMC determine whether Petitioner would have been promoted but for his pending administrative separation, and if so, take all corrective action necessary to effectuate that promotion effective on the date that he otherwise would have been promoted.

(2) That Petitioner's naval record be corrected to reflect that he was not discharged from the Marine Corps on 11 April 2022, but rather that he continued to serve honorably in the rank (or ranks) as determined by HQMC pursuant to paragraph 5a(1) above with no break in service at his last duty station. As such, Petitioner is to receive constructive service credit for the period from 12 April 2022 until the date that he is reinstated in the Marine Corps. To effectuate this relief, HQMC is directed to scrub Petitioner's record and remove any and all references to Petitioner's discharge, including but not necessarily limited to his DD Form 214 and the documents related to his administrative separation process.

(3) That documentation be added to Petitioner's naval record establishing that he requested and was approved for reenlistment prior to his original end of active obligated service (EAOS) date in order to facilitate his continuous service as recommended in paragraph 5(a)(2) above. The duration of this enlistment is left to HQMC to decide in consultation with Petitioner, but it must be of sufficient duration to encompass the period between his original EAOS date and his eventual reinstatement date³. HQMC shall determine whether such a reenlistment would have entitled Petitioner to any reenlistment bonuses, and ensure that the Defense Finance and Accounting Service (DFAS) is aware of such determination.

b. The Board further recommends that that HQMC scrub Petitioner's naval record and remove any adverse information pertaining to Petitioner's refusal to comply with the former COVID-19 vaccination mandate, including but not limited to any punitive actions, "Page 11" entries. This recommended corrective action is not contingent upon Petitioner's agreement to serve for four additional years of active duty and should be implemented without delay.

c. Copies of this record of proceedings shall be provided to the DFAS and the Defense Health Agency to facilitate the estimate of all pay and benefits which may be due to Petitioner as a result of the contingent corrective actions referenced in paragraph 5a above.

6. It is certified that a quorum was present at the Board's review and deliberations, and that the foregoing is a true and complete record of the Board's proceedings in the above titled matter. I have assured compliance with the provisions of reference (f) in the Board's proceedings.

² Petitioner's failure to agree to this contingency, or to execute such agreement once made, shall negate these recommendations. This contingency is applied in accordance with the guidance attached to reference (b).

³ Petitioner's four-year active service obligation effective upon his reinstatement in the Marine Corps may be served concurrently with any remaining period in this term of enlistment.
