█  
  
Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

A three-member panel of the Board, sitting in executive session, considered your application on 25 February 2026. The names and votes of the members of the panel will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations, and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, as well as the 15 May 2025 decision furnished by the Marine Corps Performance Evaluation Review Board (PERB) and the 8 April 2025 advisory opinion (AO) provided to the PERB by the Manpower Management Performance Branch (MMPB-23). Although you were afforded an opportunity to submit a rebuttal to the AO, you chose not to do so.

The Board determined your personal appearance, with or without counsel, would not materially add to their understanding of the issues involved. Therefore, the Board determined a personal appearance was not necessary and considered your case based on the evidence of record.

The Board carefully considered your request to remove the adverse fitness report covering the period of 1 July 2023 to 31 July 2023 from your Official Military Personnel File (OMPF). You contend that the fitness report should be removed because it contradicts prior satisfactory performance, as documented in your fitness report for the preceding period of 1 January 2023 to 30 June 2023, which was not adverse.

The Board, however, concurred with the PERB's decision that you did not demonstrate probable material error, substantive inaccuracy, or injustice warranting removal of your fitness report. Specifically, the Board concurred with the AO, that your request lacks sufficient justification. As the AO identified, your relief from duties as the Airframes Division Chief on 31 July 2023,

and the associated 6105 counseling, along with your rebuttal, are derogatory materials appropriately documented in your OMPF. This documentation supports the validity of the adverse report and your prior acceptable performance does not negate documented adversity detailed in a subsequent report. The Board thus concluded there is no probable material error, substantive inaccuracy, or injustice warranting removal of your fitness report. Accordingly, given the totality of the circumstances, the Board determined your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

3/19/2026
