Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

A three-member panel of the Board, sitting in executive session, considered your application on 11 March 2026. The names and votes of the members of the panel will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of this Board. Documentary material considered by the Board consisted of your application, together with all material submitted in support thereof, relevant portions of your naval record and applicable statutes, regulations and policies, as well as the █ decision by the Marine Corps Performance Evaluation Review Board (PERB) and the █ Advisory Opinion (AO) provided to the PERB by the Headquarters Marine Corps Performance Evaluation Section (MMPB-23). Although you were afforded an opportunity to submit a rebuttal, you chose not to do so.

The Board carefully considered your request to remove the fitness report for the reporting period 1 January 2021 to 3 June 2021 due to the unjust Reviewing Officer (RO) comments. Specifically, you contend the RO's comments go against the Performance Evaluation System (PES) Manual and put "limitations on [your] ability to be assigned to billets of a higher grade."

The Board, however, determined the fitness report was valid as written and filed, in accordance with the applicable PES Manual. The Board, concurring with the AO, noted the comments appropriately assessed you as qualified for billets of grade appropriate responsibility. The Board concluded the RO's decision to not specifically recommend you for billets of a higher grade or increased responsibility does not invalidate the report. Based on the available evidence, the Board concluded there is insufficient evidence of an error or injustice warranting removal of the fitness report. Accordingly, given the totality of the circumstances, the Board determined your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

3/24/2026
