█

Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Because your application was submitted with new evidence not previously considered, the Board found it in the interest of justice to review your application. A three-member panel of the Board, sitting in executive session on 17 February 2026, has carefully examined your current request. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, applicable statutes, regulations, and policies, to include the 25 August 2017 guidance from the Office of the Under Secretary of Defense for Personnel and Readiness (Kurta Memo), the 3 September 2014 guidance from the Secretary of Defense regarding discharge upgrade requests by Veterans claiming post-traumatic stress disorder (PTSD)/mental health condition (MHC) (Hagel Memo), and the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice, or clemency determinations (Wilkie Memo).

The Board determined that your personal appearance, with or without counsel, would not materially add to their understanding of the issues involved. Therefore, the Board determined that a personal appearance was not necessary and considered your case based on the evidence of record.

You previously applied to this Board to change your reason for separation to disability but were denied on 26 January 2017. The summary of your service substantially unchanged from that addressed in the Board's previous decision.

After careful review, the Board reached the following conclusions and denied your application for relief.

The Board initially concluded you were appropriately processed for administrative separation based on your record of misconduct. While the Board carefully considered your contention for mitigation and allegation that you only tested positive on two urinalyses, the Board noted you did not deny committing the misconduct that is documented in your record¹. Therefore, the Board determined the presumption of regularity applies to the finding that you committed the misconduct that formed the basis of your administrative separation and no error exists with your OTH characterization of service.

Because you checked the “PTSD” box on your application, the Board applied liberal consideration to your claim that you suffered from a mental health condition, and to the effect that this condition may have had upon the conduct for which you were discharged in accordance with the Hagel and Kurta Memos. Applying such liberal consideration, the Board found sufficient evidence of a diagnosis of mental health condition that may be attributed to military service. This conclusion is supported by your medical evidence that is temporally remote to your service. However, even applying liberal consideration, the Board found insufficient evidence to conclude that the misconduct for which you were discharged was excused or mitigated by your mental health condition. In this regard, the Board simply had insufficient information available upon which to make such a conclusion. Moreover, even if the Board assumed that your misconduct was somehow attributable to any mental health conditions, the Board unequivocally concluded that the severity of your serious misconduct more than outweighed the potential mitigation offered by any mental health conditions.

In addition to applying liberal consideration to your claimed mental health condition and its potential effect upon your conduct in accordance with the Hagel and Kurta Memos, the Board also considered the totality of the circumstances to determine whether equitable relief is warranted in the interests of justice in accordance with the Wilkie Memo. In this regard, the Board considered, amongst other factors, your contentions, the totality of your service, the non-violent nature of your misconduct, your relative youth and immaturity at the time of your misconduct, the negative effect your discharge has had on your life, your mental health issues, your advanced age, and the passage of time since your discharge.

The Board found that the mitigating factors were not nearly sufficient to justify any equitable relief. Specifically, the Board found that the severity of your misconduct far outweighed all of the mitigating factors combined. In particular, the Board determined that illegal drug use by a service member is contrary to military core values and policy, renders such members unfit for duty, and poses an unnecessary risk to the safety of their fellow service members. Further, the Board found that your conduct showed a complete disregard for military authority and regulations. The Board observed you were given multiple opportunities to correct your conduct deficiencies but chose to continue to commit misconduct, which led to your OTH discharge. Your conduct not only showed a pattern of misconduct but was sufficiently pervasive and serious to negatively affect the good order and discipline of your command. Additionally, with regard to your contention that you did not receive treatment for your drug addiction, the Board noted that, on 13 March 1967, a Drug Abuse Evaluation determined you were not drug dependent and did

¹ The Board noted your denial of a third positive urinalysis but observed that your record only documents two drug abuse charges through non-judicial punishments. The Board found no evidence in your record regarding a third drug abuse incident and noted that the Board’s previous decision letter only refers to the two drug offenses.

not require detoxification. Regulatory guidelines stated a command was under no obligation to send a service member to drug rehabilitation treatment unless it was determined, by competent medical authority, that the service member was drug dependent. Moreover, previously on 10 March 1967, you indicated that you neither desired or requested drug rehabilitation treatment. Therefore, the Board was not persuaded by your argument of injustice due to lack of treatment. Finally, the Board believed that it would be unjust to characterize your less than honorable service in the same manner as the service of the thousands of service members who, unlike you, honorably completed their enlistments without engaging in misconduct warranting the early curtailment of their service. Therefore, the Board did not find an upgrade of your discharge to General (Under Honorable Conditions) or Honorable to be warranted in the interests of justice.

Accordingly, given the totality of the circumstances, the Board determined your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

2/26/2026
