

DEPARTMENT OF THE NAVY
BOARD FOR CORRECTION OF NAVAL RECORDS
701 S. COURTHOUSE RD
ARLINGTON, VA 22204

Docket No. 10930-25
Ref: Signature Date

Dear Petitioner:

This is in reference to your application for correction of your naval record pursuant to Section 1552 of Title 10, United States Code. After careful and conscientious consideration of relevant portions of your naval record and your application, the Board for Correction of Naval Records (Board) found the evidence submitted insufficient to establish the existence of probable material error or injustice. Consequently, your application has been denied.

Although your application was not filed in a timely manner, the Board found it in the interest of justice to waive the statute of limitations and consider your application on its merits. A three-member panel of the Board, sitting in executive session, considered your application on 12 June 2026. The names and votes of the panel members will be furnished upon request. Your allegations of error and injustice were reviewed in accordance with administrative regulations and procedures applicable to the proceedings of the Board. Documentary material considered by the Board consisted of your application together with all material submitted in support thereof, relevant portions of your naval record, and applicable statutes, regulations, and policies, to include the 25 July 2018 guidance from the Under Secretary of Defense for Personnel and Readiness regarding equity, injustice or clemency determinations (Wilkie Memo).

The Board determined that your personal appearance, with or without counsel, would not materially add to their understanding of the issues involved. Therefore, the Board determined that a personal appearance was not necessary and considered your case based on the evidence of record.

The following is the relevant factual background of your case based upon review of your naval record and/or the matters provided with your application:

- You enlisted in the U.S. Navy and began a period of active duty service on 5 July 1995. Your pre-enlistment physical examination, 19 July 1994, and self-reported medical history both noted no psychiatric or neurologic issues or symptoms. On 15 January 1996, you reported for duty on board the [REDACTED], performing the duties of a postal clerk in the base post office.

– On 12 July 1996, you received non-judicial punishment (NJP) for: (a) attempting to possess a false Armed Services ID Card, (b) ten (10) separate specifications of check forgery, and (c) wrongfully stealing from the base post office a box of 200 personal checks issued by ██████████ in the name of another Sailor. You did not appeal your NJP.

– Consequently, on 15 July 1996, your command notified you of administrative separation proceedings by reason of misconduct due to the commission of a serious offense. On the same day, you waived your rights to consult with counsel and to request a hearing before an administrative separation board.

– On 23 July 1996, your commanding officer (CO) recommended to the separation authority (SA) that you be separated with an under Other Than Honorable conditions (OTH) discharge characterization. Your CO's recommendation stated, in pertinent part:

Member's abuse of his position as a Postal Clerk to initiate a course of criminal activity clearly indicates that he cannot be trusted. Additionally, the seriousness and nature of his crimes had a particularly negative impact on command morale. Sailors stealing from Sailors cannot be tolerated. Personnel assigned to isolated duty stations, such as ██████████, are extremely reliant upon the mail and must be confident that they can trust their fellow shipmates. Accordingly, I recommend that the member be separated from the naval service and that the characterization of his discharge be under other than honorable.

– On 20 August 1996, the SA approved and directed your OTH discharge characterization. Ultimately, on 11 September 1996, you were separated from the Navy with an OTH discharge characterization and assigned a RE-4 reentry code.

In your application to this Board, you express a desire for your discharge character of service be upgraded and contend that:

- You have changed since you were discharged.
- You take full responsibility for your actions and deeply regret the choices that led to your poor decisions.
- You would like your discharge upgraded for disability eligibility.

After careful review, the Board reached the following conclusions and denied your application for relief.

The Board initially concluded you were appropriately processed for administrative separation based on your record of misconduct. The Board noted you admitted to committing the misconduct that formed the basis of your administrative separation and OTH discharge. Therefore, the Board determined the presumption of regularity applies to your OTH discharge and no error exists with your record.

The Board also considered the totality of the circumstances to determine whether equitable relief was warranted in the interests of justice in accordance with the Wilkie Memo. In this regard, the Board considered, amongst other factors, your desire for an upgrade to your characterization of service, your contentions, the totality of your service to include service highlights, your need for veterans' benefits, the non-violent nature of your misconduct, your relative youth and immaturity at the time of your misconduct, your candor and remorse, and the passage of time since your discharge.

The Board found that the mitigating factors were not nearly sufficient to justify any equitable relief. Specifically, the Board found that the severity of your misconduct far outweighed all of the mitigating factors combined. In particular, the Board noted that you engaged in a course of misconduct in your official capacity over an extended period of time. The Board determined that your willful and persistent misconduct while acting in a position of trust more than merited an OTH. Further, absent a material error or injustice, the Board declined to summarily upgrade a discharge solely for the purpose of facilitating veterans' benefits, or enhancing educational or employment opportunities. Even though the Board considered your desire for veterans' benefits, they determined the severity of your misconduct outweighed any mitigation resulting from that factor. Therefore, even taking into consideration all the mitigation factors in your case, the Board found that your misconduct while on active duty outweighed the mitigation evidence offered. In making this finding, the Board took into consideration your youth and immaturity along with the circumstances of your assignment to Diego Garcia; however, again, the Board found these factors insufficient to overcome the nature of your misconduct. As explained in your CO's recommendation comments, your behavior was particularly corrosive to command morale because of the isolated nature of the assignment which required Sailors to rely on the postal service. While the Board acknowledged and appreciates your acceptance of responsibility for your actions, ultimately, the Board concluded an upgrade of your discharge characterization of service is not warranted in the interests of justice.

Accordingly, given the totality of the circumstances, the Board determined that your request does not merit relief.

You are entitled to have the Board reconsider its decision upon submission of new matters, which will require you to complete and submit a new DD Form 149. New matters are those not previously presented to or considered by the Board. In this regard, it is important to keep in mind that a presumption of regularity attaches to all official records. Consequently, when applying for a correction of an official naval record, the burden is on the applicant to demonstrate the existence of probable material error or injustice.

Sincerely,

6/16/2026

the 1990s, the number of people in the United States who are 65 years of age and older has increased by 50 percent. The number of people 75 years of age and older has increased by 100 percent. The number of people 85 years of age and older has increased by 200 percent. The number of people 95 years of age and older has increased by 400 percent. The number of people 100 years of age and older has increased by 1,000 percent. The number of people 105 years of age and older has increased by 2,000 percent.
