Relevant systems of records maintained in the Department of the Navy pertaining to these enlisted members have been queried and reveal no adverse information or substantiated misconduct that would impact suitability for appointment. To the best of my knowledge, there are no planned or ongoing investigations or inquiries into matters that constitute alleged adverse information on the part of these enlisted members.

This package is submitted late for processing due to administrative delay of the accessions source.”

n. On 12 June 2025, Commanding Officer, Naval Medical Leader and Professional Development Command notified this Board that "Purpose. This letter serves to provide a formal statement in support of the Board for Correction of Naval Records (BCNR) in the case of ENS [Petitioner], graduate of the Medical Enlisted Commissioning Program (MECP), who was delayed in commissioning and not receiving officer pay due to an administrative error.

Background. There were 15 MECP graduates who successfully completed all requirements and graduated from the program in December 2024. [Petitioner] completed program requirements in December 2024 and her degree was conferred 10 January 2025. An error in submitting the scroll for commissions to the appropriate authority delayed the commissioning process. Scroll was signed by the Office of the Secretary of Defense (OSD) on 11 March 2025, and Oath of Office signed 11 February 2025. As a result, these officers have experienced a delay in their official commissioning dates and subsequent receipt of officer pay and entitlements.

Impact: This administrative error has resulted in financial and professional hardship for the 15 affected members, who have fulfilled all obligations and requirements. The member was originally slated to commission on 10 December 2024, attend Officer Development School (ODS) in March 2025 but have been delayed to June 2025.

Request. It is respectfully requested that the BCNR approve the correction of the commissioning date to reflect the original intended date of 10 December 2024 and grant retroactive officer pay from the corrected commissioning date. This correction will address the financial and professional impact on the affected members and rectify the administrative error."

o. [REDACTED] Department of Health Professions issued a Registered Nurse number with an expiration date of 30 November 2026.

CONCLUSION

Upon review and consideration of all the evidence of record, and especially in light of the contents of enclosure (2), the Board finds the existence of an injustice warranting the following partial corrective action. The Board concluded that on 10 January 2025, the George Washington University, Washington, District of Columbia conferred the degree of Bachelor of Science in Nursing. Due to an administrative oversight and delays in the processing of officer's scroll at BUMED, her commissioning was postponed. On 11 February 2025, the Oath of Office (NAVPERS 1000/4) was issued and on 11 March 2025, her scroll was approved. As a result, Petitioner experienced a delay in her official commissioning date and subsequent receipt of officer pay and entitlements. In accordance with references (b) and (c), upon successful completion of a baccalaureate or entry level master's degree in nursing (certified by the accredited college/university), the candidate will receive a permanent appointment in the grade of ensign in the NC, U.S. Navy. Additionally, reference (d) states for eligibility, a member "...must be a graduate of a school of nursing accredited by the National League for Nursing Accrediting Commission or the Commission on Collegiate Nursing Education that conferred a nursing baccalaureate or an advanced nursing degree." Therefore, the Board concluded that under this circumstance, partial relief is warranted. The Board determined that the commissioning date will be 10 January 2025, the date the degree was conferred vice the requested date of 7 December 2024.
